Key Rating Drivers with detailed description

Key Rating Strengths

Experienced promoter & management team

The company is being managed by an experienced director, Mr. Rakshit A Patel, who has a rich experience of more than two decades in the pharmaceuticals industry and is instrumental in development of the company. Having operated in industry since years now, the management has established a strong network with suppliers and customers. Beside the promoter, the company has a team of experienced and capable professionals, having over two decades of experience in the segment, to look after the overall operations and day to day management.

Established Market Position with a wide product portfolio

JPL has an established market position in India in pharmaceutical formulations supported by extensive experience of its promoter, its established marketing network and a wide product portfolio consisting of Tablets, Capsules and others representing a range of clinically proven products developed from scientifically validated and licensed products. The pharmaceutical formulations in different therapeutic groups include Ibuprofen, Ampicillin, Azythromycin, Diclofenac and Amoxyllin to name a few.

Reputed Clientele

The company derives majority of its revenue from selling products to other multinational companies and has developed an established & longstanding relationship with various state bodies. The clientele of the company includes Cipla Limited, Procter and Gamble Limited, Maruti Pharma Chem Private Limited, Glencoe Investment Limited and so on.

Healthy revenue growth improving EBITDA margins:

The Company's topline is on a steady increase with a CAGR of ~27% in the last three years ended FY2020 as company has established a good presence in the regions it operates, given the promoters' strong relationships established with it's clients over the years. The company's

EBITDA margins are witnessing the improving trend as it increased to 6.34% in FY2020 (FY19: 6.12% and FY18: 4.91%).

Key Rating Weaknesses

Moderate financial risk profile and capital structure

The financial risk profile of the group is marked by moderate capital structure. The company's net worth stood at Rs. 20.5 crore as on March 31,2020. The overall gearing stood moderate at 1.39x as on March 31,2020. The total indebtedness of the company as reflected by TOL/ATNW remained moderate at 2.27x.. To arrive at the tangible net worth Infomerics has considered unsecured loans aggregating to Rs.7.8 crore as quasi-equity. Further, the debt protection metrics also remained moderate with interest coverage at 1.76x in FY20 (1.99x in FY19 and 2.28x in FY18).

Vulnerability to change in government/regulatory policies and volatility in raw material prices

The pharmaceutical industry is highly regulated, and hence, any adverse change in government/regulatory policies can impact the business risk profile of the Company. Moreover, intense competition in the generics business limits the pricing flexibility of players. Raw materials account for 60-70% of the cost of sales, and operating margin remains susceptible to any sharp change in input prices.
