Details of Facilities are in Annexure 1

Detailed Rationale

The aforesaid rating affirmation to the bank facilities of Malayalam Communications Ltd (MCL) continue to derives comfort from its experienced promoters and management, channels across genres, established presence in the regional segment and healthy financial risk profile. However, the rating strengths are partially offset by range bound operating revenues, elongated operating cycle and slow recovery of trade receivables, capital intensive nature of business, and high competition in the television broadcasting segment along with the rapid advancement in smartphone technology

Key Rating Sensitivities

Upward revision factors:

- Sustained increase in profitability along with improvement in leverage
- Significant improvement in gearing

Downward revision factors:

- De-growth in revenues due to regulatory restrictions or pricing pressures
- Increased stress on working capital cycle due to increase in receivables.
- Significant deterioration in debt protection parameters

Key Rating Drivers with detailed description

Key Rating Strengths

Experienced promoters and management

MCL was incorporated in 2000 and has a track record spanning more than 18 years in the television broadcasting segment. The company was promoted by Mr. P. I. Mohammed Kutty (alias Mammooty), a renowned actor in the Malayalam film industry. Mr. John Brittas, a renowned journalist with rich experience in television industry, is the Managing Director of the company. Further, the key managerial personnel of the company are also well experienced.

Channels across genres

The first channel of the company, Kairali TV, was aired in 2000. The company gradually entered other genres by offering a bouquet of channels. Kairali People (24*7 news channel), Kairali WE (youth channel) and Kairali Arabia (GEC catering to the Malayali population in the Middle East) were started in 2005, 2007 and 2015 respectively.

Established presence in the regional segment

The channels of the company have strong presence in geographies having substantial Malayalam speaking population like Kerala, GCC countries, etc. The average viewership of the company's channels has been flat over the last three years. All channels of MCL are included in the "south package" offered by all major cable providers (including leading DTH providers).

Healthy financial risk profile

The capital structure of the company has remained comfortable with a gearing ratio reducing to 0.82x as on March 31, 2019 due to decline in borrowings. Going forward, the company are not anticipating any debt-funded capex, along with an expected steady increase in accruals, the capitalisation and coverage indicators are expected to improve gradually over the projected period. The company has infused capital in the form of Compulsorily Convertible Debentures aggregating Rs.27.50 crore during FY17-FY19 (of which Rs.10 crore came in FY19).

Key Rating Weaknesses

Range bound operating revenue

The company posted marginal increase in revenue from Rs.61.69 crore in FY18 to Rs. 62.10 crore in FY19. EBITDA margins of the company has been healthy over the last three years in the range of 56-58%. The EBITDA margin of the company has reduced marginally during FY19 due to increased overhead costs. The company has also seen a decrease in their gross cash accruals due to an increase in taxes paid in the current year.

Continually elongated operating cycle and slow recovery of trade receivables

Operations of the company are working capital intensive in nature. The average receivable collection days and average creditor days stood at 253 days and 75 days respectively in FY19. The working capital cycle is elongated (177 days in FY19) on account of high debtor days. Additionally, the company had an average utilisation of 93.98% in the last 12 months ended January, 2020. The operating cycle of the company has been stretched largely due to a high amount of creditors; amounting to Rs. 78.89 crore in FY19, increased from Rs. 74.35 crore in FY18; the management has stated that the debtors largely include advances given to the gulf channel and collections from the Kerala State Government, the recoveries from whom has been slow. Additionally, the company has written off bad debts amounting to Rs. 3.55 crore in FY18 and Rs. 1.67 crore in FY19.

Capital intensive nature of business

The segment in which the company operates is highly capital intensive due to the need for procurement of various network rights & licenses along with requirement of infrastructure and equipment. Further, the company also invests significantly in content creation (producing television soaps etc.) in order to attract more viewership.

High competition in the television broadcasting segment along with the rapid advancement in smartphone technology

The media and entertainment industry remains related to the cyclical nature in advertising spends by corporates. In addition, with increasing competition across genres and the emergence of alternative content delivery platforms such as digital media resulting in fragmentation of viewership, the ability of the company to maintain its leadership position and the resultant share in advertisement revenue will remain crucial. On a regional level the company faces competition from multiple broadcasters including Asianet (a southern media heavyweight). The ability of the company to ably fend off its competition and keep its revenues at a sustained level remains a key rating factor.

Analytical Approach & Applicable Criteria:

Standalone

Rating Methodology for Service companies

Financial Ratios and Interpretation (Non-Financial Sector)

Liquidity: Adequate

The company is earning a moderate level of GCA and the same is expected to increase gradually with increase in scale of operation and level of margin, while the long term debt is likely to reduce indicating lower debt servicing obligations and the company utilising its internal accruals to fund any capital expenditure requirements. Promoters have financially supported the operation of the business as and when required and the same is expected to be so going forward and a part of which is reflected in increase in net worth by virtue of equity infusion in the form of CCD. All these factors indicate an Adequate degree of liquidity support to the company in meeting its near-term debt obligations.

About the Company

Malayalam Communications Limited (MCL) is an unlisted public limited company incorporated in 2000. MCL is a television broadcasting company which operates four regional channels primarily catering to the Malayali speaking population both in India and abroad. The first channel of the company, Kairali TV, was aired in the year 2000 and since then the company has gradually entered other genres by offering a bouquet of channels. MCL was promoted by Mr. P. I. Mohammed Kutty (alias Mammooty), a renowned actor in the

Malayalam film industry. The company has a unique shareholding pattern with around 99.5% of the shares held by over seventy thousand individual shareholders, which was raised by the company through private placement. Mr. John Brittas is the Managing Director of the company. He is a renowned journalist with rich experience in television and broadcasting industry. The average viewership over the last three years has been over two million.
