### Detailed Rationale

The ratings assigned to the bank facilities of Saravana Selvarathnam Retail Private Limited (SSRPL or the company) takes into account its established track record of group and extensive experience of promoters, healthy financial risk profile and good scale of operations. These are partially offset by working capital intensive operations, exposure to intense competition and geographical concentration in the retailing industry.

### Key Rating Sensitivities

#### Upward Factors

- Growth in operating income with improvement in margins leading to improvement in cash accruals on a sustained basis.
- Improvement in the operating cycle leading to improvement in liquidity.

## Press Release

### - **Downward Factors**

- Dip in operating income and/or profitability along with prolonged impact of Covid-19 adversely affecting the company's financial performance and liquidity position.
- Stretch in the working capital cycle driven by pile-up of inventory and/or sizeable capital expenditure weakening the financial risk profile.

### List of Key Rating Drivers with Detailed Description

#### Key Rating Strengths

- **Established track record of group and extensive experience of promoters -** Saravana stores has been in retail business for over more than 4 decades. Saravana Selvarathnam Retail Pvt Ltd is a part of Saravana group, which is largest family-owned enterprise in Tamil Nadu. The promoters have an extensive experience in the retail market and have wide reputation in retail market segment. The "Saravana Selvarathnam Stores" has a wide brand presence in the state of Tamilnadu and majorly targets low and middle-income customers. They offer low price and reasonable quality products with a variety of discounts and deals everyday thus providing value for money shopping to the customers. The company has strong procurement linkages owing to large scale of operations, and commands pricing of cost-plus-nominal mark-up from manufacturers.
- **Healthy financial risk profile** -The Company's financial risk profile is healthy, marked by tangible net worth including quasi equity of Rs 208.55 crore. The company has overall low gearing of 0.76x and moderate debt protection metrics with ISCR at 1.81x as of 31<sup>st</sup> March 2020. The TOL/TNW has also remained low at 1.21 times as on March 31<sup>st</sup>, 2020. The Company has shown continuous improvements in profitability margin over the past 4 years and has improved from 4.71% to 6% levels.
- **Good scale of operations-** The scale of operations is large and is recorded sales of Rs. 460.20 crore in FY2020 as against Rs. 438.53 crore in FY2019. In view of the possible impact of COVID-19, both by way of the halt in operations and the lower demand from the end-users, the company has estimated a muted growth in turnover

## Press Release

for FY2021. As of Dec 2020 (prov), company was able to record sales of Rs. 256.82 crore and EBIDTA of Rs. 15.41 crore.

### B. Key Rating Weaknesses

- **Working capital intensive operations** - The Company's operations are working capital intensive as the company maintains inventory of over 6-7 months, resulting in an elongated working capital cycle. This increases the company's dependence on working capital facilities to meet its funding requirements. Hence the average utilization is almost fully utilized. However, introduction of newer stores and product variants will help to achieve sales growth for the company.
- **Exposure to intense competition and geographical concentration in the retailing industry** – The Company has shopping complexes on the high streets of Chennai, which are flooded with small and large players in the same line of business. It faces intense competition in terms of product quality and pricing, which leads to continuous pricing pressure, affecting its margins.

### Applicable Criteria

Rating Methodology for Trading companies

Financial Ratios & Interpretation (Non-Financial Sector)

### Liquidity: Adequate

The liquidity is adequate as the company is expected to generate steady cash accrual over the near medium term against minimal repayment obligation. The company operations are highly working capital intensive as marked by Gross Current Assets (GCA) of 189 days in FY2020. This is majorly because of the high inventory days of 186 days which is standard as per the industry segment. However, this has led to high reliance on working capital borrowings which were utilised at 97.48% during the last 12 months period ended December 2020.
