Commercial Paper (CP)	500.00*	IVR A1+ (IVR A One Plus)	IVR A1+ (IVR A One Plus)	Rating Reaffirmed	Simple
Commercial Paper (CP)	150.00*	IVR A1+ (IVR A One Plus)	--	Rating Assigned	Simple
Total	1425.00 (Rupees One Thousand Four Hundred and Twenty-Five Crore only)				

* For above-mentioned CP issuance, TIAPL will keep an equivalent amount of bank lines unutilized.

Details of Facilities/Instruments are in Annexure 1. Facility wise lender details are at Annexure 2. Detailed explanation of covenants is at Annexure 3.

Detailed Rationale:

Infomerics Ratings has reaffirmed / assigned the ratings to the NCDs / CPs of TIAPL which continues to derive strength from strong revenue and volatile revenue growth, diversification of revenue, established relationships with strong institutional clients and investors and experienced promoters.

The ratings are however constrained by leveraged capital structure despite strong net worth, interest rate risk & volatility in demand in the debt capital market and competition.

Press Release

Infomerics Ratings expects outlook to remain stable on the expectations of stable scale of operations coupled with healthy profitability margins and improvement in financial risk profile of the overall group.

Key Rating Sensitivities:

Upward Factors

- Diversification of revenue while maintaining current profitability leading to overall gearing falling below 1x on a sustained basis.

Downward Factors

- Decline in revenue from core activities and/or declined in profitability leading to deterioration in overall gearing 3.5x on a sustained basis.

List of Key Rating Drivers with Detailed Description

Key Rating Strengths

- **Strong profitability and volatile revenue growth:**
Trust Group's profitability, marked by EBITDA margins, remained strong, staying in the range of 72.15%-80% from FY22 to FY24 (refers to period 1st April 2023 to 31st March 2024). In FY24, EBITDA margin remained stable at 72.34%, slightly up from 72.15% in FY23 on account of rationalisation in operating costs. Infomerics Ratings anticipates that EBITDA margins will continue to be strong, ranging from 72% to 75%, driven by the benefits of operating leverage. However, revenue growth has been volatile, with a ~15% decline to Rs. 487.51 crore in FY24. This decline was primarily due to lower dividend income from the Mauritius-based subsidiary, Chanakya Capital Partners (CCP). The discrepancy arose because CCP follows a calendar year (January-December) for auditing its financials, while TIAPL and its subsidiaries/associates follow an April-March cycle. As a result, the group's fees from portfolio management services (PMS) decreased to Rs. 43.92 crore in FY24 from Rs. 103.02 crore in FY23. According to management, this impact is expected to be offset in FY25, as CCP has already recorded the dividend in its books, with the actual remittance taking place later. Additionally, fees from merchant banking and origination dropped to Rs. 168.23 crore in FY24 from Rs. 189.31 crore in FY23, and interest income from investments

Press Release

decreased to Rs. 66.73 crore in FY24 from Rs. 96.99 crore in FY23. Infomerics Ratings notes that FY23 is one-off year with one-time higher dividend received from its overseas subsidiary on account of significant gains. However, on a standalone basis revenue grew by 20% on y-o-y basis to Rs. 340.55 crore in FY24 which accounts for ~70% of the group's revenue. Going forward, the group's ability to maintain sustained growth while preserving strong profitability will be a key rating monitorable.

- **Diversification of revenue:**

The Trust group has presence in merchant banking, wealth management, advisory business, and portfolio management services. The group offers a wide array of financial services to domestic and overseas clients. Trust group has recently made a foray into overseas markets through its subsidiary Chanakya Capital Partners which is the advisory arm of the group catering to international clients. The group has been able to fortify its presence in both capital markets with its strong sourcing, structuring, underwriting, and distribution capabilities for debt issuances.

- **Established relationships with strong institutional clients and investors:**

Due to the established presence and long track record of operations in the domestic market, Trust Group enjoys a large institutional client base including Banks, Insurance companies, Mutual funds and Large Corporates.

- **Experienced Promoters:**

Trust Group promoter Nipa Seth has more than two decades of experience in financial solution across all the asset classes.

Key Rating Weaknesses

- **Leveraged capital structure despite strong net worth:**

Trust Group has a strong net worth, with a book tangible net worth of Rs. 1,040.61 crore as of March 31, 2024, compared to Rs. 983.45 crore in FY23 and Rs. 809.71 crore in FY22. The increase in net worth is attributed to the accumulation of profits into reserves and surplus. However, net profit has decreased to Rs. 70.54 crore in FY24,

Press Release

down from Rs. 168 crore in FY23, due to a decline in revenue and higher interest expenses. Despite the healthy net worth, the group's capital structure remains leveraged, though the overall gearing ratio has improved to 2.90x as of March 31, 2024, from 3.31x as of March 31, 2023, owing to a relatively lower utilization of bank borrowings. Going forward, the Group's ability to improve its capital structure will remain a key rating monitorable.

- **Interest rate risk and volatility in demand in the debt capital market:**

Securities are subject to inherent interest rate risk, which depends on various factors and market conditions, although it is low in Government securities. The revenues of the Trust group are correlated with the level of activity in the bond markets, which, in turn, is linked to overall economic activity. A significant slowdown in the economy would lead to decreased demand for funds, resulting in lower volumes of bond issuances. Any significant concentration in a single bond facing a credit cliff exposes the group to high levels of credit and liquidity risk.

- **Competition:**

The industry is characterized by competition from various players to tap the market share with competitive pricing strategy.

Analytical Approach: Consolidated

Infomerics Ratings has taken a consolidated view on the Trust Capital Services (India) Private Limited (Holding Company) and its subsidiaries, namely Trust Investment Advisors Private Limited, Trust Securities Services Private Limited, Sankhya Financial Services Private Limited, Trust Asset Management Private Limited, Chanakya Capital Partners, Trust AMC Trustee Private Limited and Prajana Advisors Private Limited collectively referred to as 'Trust group'. This because of the common promoters, shared brand name, significant operational and financial synergies between the companies.
