Ratings

Facilities	Amount (Rs. crore)	Ratings	Rating Action	Complexity Indicator
Long Term Fund Based Bank Facilities – CC	75.00 (Increased from Rs.27.75 crore)	IVR BBB / Stable Outlook (IVR Triple B with Stable Outlook)	Revised from IVR BBB- / Stable Outlook (IVR Triple B Minus with Stable Outlook)	Simple
Total	75.00 (Rupees Seventy-Five crore only)			

Details of facilities are in Annexure 1

Detailed Rationale

The revision in the rating assigned to the bank facilities of A1 Agri Global Limited (erstwhile A1 Agri Global Private Limited) (AAGL) derive comfort from the funds infusion to the tune of Rs.28.75 crore in the form of equity and USL and the overall improvement in the scale of operations and profitability in FY23 and maintenance of the same in the H1FY24. The rating also factors in the experienced top management and resourceful promoters, strong relationships with customers ensuring repeated orders, modest working capital cycle as reflected by low debtors and inventory levels resulting in limited dependence on debt, favourable demand outlook for the edible oil sector in India, with the company's focus on the HoReCa segment and adequate liquidity.

The rating is however constrained on account of the thin profit margin, highly competitive and fragmented nature of the industry, susceptibility to regulatory/ geopolitical risk.

Key Rating Sensitivities:

Upward Factors

- Sustained and significant improvement in revenue and profitability.
- Improvement in the capital structure with improvement in TOL/TNW and sustained improvement in debt protection metrics.

Downward Factors

Press Release

- Any decline in revenue & profitability leading to deterioration in debt protection metrics.
- Any major unplanned debt-funded capex

List of Key Rating Drivers with Detailed Description

Press Release

Favourable demand outlook for the edible oil sector in India

The Indian edible oil industry is price sensitive in nature as a substantial part of the consumption is correlated to the changes in prices of edible oil and quantum of disposable income. The demand for edible oil in India has witnessed steady growth over the years and the long-term demand outlook for edible oil in India continues to be favourable. India is the third largest consumer of edible oil (after China and the EU-27 countries) and domestic edible oil fulfils ~40-45% of total domestic consumption leading to sizeable import dependence.

The Company's focus on HoReCa Segment

The retail edible oil market can be divided into two segments HoReCa (Hotel-Restaurant Caterer) and end consumers, who consume a majority of the edible oil share. With the increased focus on the HoReCa segment consumption, post COVID-19, the demand of the company is envisaged to surge rapidly. Also, generally the HoReCa segment is more reliable as compared to the other segments in terms of the lifting and also in terms of the margins considering the bulk orders.

Key Rating Weaknesses:

Thin profit margin

The edible oil trading industry is vulnerable to government policies in the form of duties imposed on import of refined and crude edible oil, volatility in edible oil prices and foreign exchange rates. Therefore, the company's profitability margins from sale of edible oil, usually remains thin, as visible from the PAT margin of less than 1% in FY23 and 1.17% in H1FY24.

Highly competitive and fragmented nature of the industry

The Indian edible oil industry is intensely competitive due to numerous small players and some reputed players. Moreover, the company has thin profit margins due to the trading nature of operations without any value addition.

Exposure to regulatory/ geopolitical risk

India remains dependent on edible oil imports from countries like Indonesia, Malaysia, Ukraine, Russia, etc. Any issue in the producing countries such as export ban or an event like the Russia – Ukraine conflict or a bad crop may hamper the availability of raw material and

spark a price rise. The Government of India also regulates edible oil imports via import duty and agri-cess, which are also a risk for industry players.
