Detailed Rationale

Infomerics Ratings has downgraded the ratings assigned to the bank facilities of Bhimraj Exports Private Limited (BEPL) because of non-cooperation by the company despite repeated follow ups and lack of adequate information leading to information availability risk and hence uncertainty around its credit risk.

Infomerics Ratings assesses whether the information available about the company is commensurate with its rating and reviews the same as per its policy. The outlook is revised from stable to negative due to information availability risk.

The lenders, investors and other market participants are thus advised to exercise appropriate caution while using this rating as the rating may not adequately reflect the credit risk profile of the company.

Press Release

Non-cooperation by Issuer

Infomerics Ratings has been regularly following up with the company to provide the required data to monitor its assigned rating to the bank facilities, vide E-mail communications dated October 25, 2024, October 30, 2024, November 22, 2024, and concurrently over several phone calls. Availability of information is very critical in rating exercise. In the absence of the requisite information, in consonance with SEBI guidelines, Infomerics Ratings has to assign the rating based on the best available information.
