Detailed Rationale

Infomerics Valuation and Rating Private Limited (IVR) has assigned/Re-affirmed long-term rating of IVR BBB- with a Stable outlook and short-term rating of IVR A3 for the bank loan facilities/Fixed Deposit of Elgi Rubber Company Limited .

The rating assigned of Elgi Rubber Company Limited considers the comfort from vast experience of the promoters in the tyre reclaim and re-treading business, established relationship with reputed customer profile, supported by growth in demand and reduced raw material costs. However, these factors are offset by Working capital intensive nature of operations and Susceptibility of profitability to raw material price volatility.

Press Release

IVR has principally relied on the standalone audited financial results of Elgi Rubber Company Limited up to FY22 & FY23 and publicly available information/ clarifications provided by the company's management.

Key Rating Sensitivities:

Upward Factors

- Substantial improvement in the scale of operations and EBITDA margins above 13%
- Improvement in debt protection metrics
- Sustenance of the gearing below 0.50x

Downward Factors

- Significant reduction in the scale of operations and profitability margins
- Deterioration in debt protection metrics and overall gearing

List of Key Rating Drivers with Detailed Description

Key Rating Strengths

Vast experience of promoters:

Mr. Sudarsan Varadaraj, the Chairman and Managing Director of the company has over 4 decades of experience in the tyre retreading and rubber reclaim business. His son Mr. Harsha Varadaraj, Executive director has over 6 years of experience and looks after the Indian operations. The other directors in the company also have experience of 3-4 decades in the rubber industry. Mr. Jairam Varadaraj, director, brother of Mr. Sudarsan Varadaraj is also the managing director of Elgi Equipments Limited which is engaged in air compressor manufacturing such as reciprocating compressors, screw compressors, and centrifugal compressors, and garage equipment for the automotive segment. Mr. Sudarsan Varadaraj is also in the board of Elgi Equipments Limited. Mr. Jairam Varadaraj is also the former Chairman of the Tamil Nadu State Committee of the Confederation of Indian Industry (CII) and past member of the Southern Region Council of CII.

Established and diversified clientele:

Press Release

The strong track record of the company and vast experience of promoters in the re-treading and reclaim business have aided in establishing a strong customer network. Some of the top customers include major tyre manufacturers such as CEAT Limited (CARE AA; Stable/ CARE A1+), MRF Limited (CARE AAA; Stable/ CARE A1+) etc. The client profile is diversified with top 10 customers forming 42.00% in FY23.

Improved debt protection metrics and financial risk profile:

In terms of the debt coverage indicators, the interest service coverage ratio (ISCR) improved to 1.35x in FY2023 as compared to 0.96x in FY2022, and the debt service coverage ratio (DSCR) remained comfortable at 1.10x in FY2023. The tangible networth improved to Rs. 287.00 crore in FY2023 from Rs. 271.32 crore in FY2022. The total operating income (TOI) improved by ~12.54% to Rs. 223.01 crore in FY2023 from Rs. 198.36 crore in FY2022.

Improved profitability:

The company's operating profit and net profit improved to Rs. 22.61 crore and Rs. 14.81 crore respectively in FY2023 as compared to Rs. 11.34 crore and Rs. 8.32 crore respectively in FY2022, due to increase in overall operating income.

Key Rating Weaknesses

Working capital intensive nature of operations:

Elgi operations are working capital intensive in nature, supported largely by bank borrowings. They have an elongated operating cycle of 153 days in FY2023 though improved in (FY2022:170 days) mainly due to the high receivable period of 88 days in FY2023 (92 days in FY2022).

Susceptibility of profitability to raw material price volatility:

The company is exposed to volatility in raw material prices. The prices of these raw materials are highly volatile and can lead to volatility in the profitability margins. However, this risk of volatility in prices is partially mitigated by the company's long-standing relations and understanding with clients on the price front and price escalation clauses that work on both

sides; in case raw material prices decline, the company passes on the benefit to customers, and in case the prices move upward, the company gets compensated for the same. Additionally, most of the orders in the telecom sector are of a short duration; hence, volatility in raw material prices can be incorporated in the new purchase order, preventing the company from large price movements.

Liquidity – Adequate

The company has an adequate liquidity position. There are long-term secured borrowings from banks, amounting to Rs. 87.20 crore, as on 31st March 2023. Against a current portion of long-term debt (CPLTD) of Rs 19.53 crore in FY2023, the company had a cash accrual of Rs. 24.71 crore in FY2023. The company projected to generate cash accruals of Rs. 45.41 crore in FY2024 against a CPLTD of Rs. 22.48 crore. With the adequate expected cash accruals against repayments, the liquidity position will remain adequate.
