Total	357.40	(Rupees Three Hundred Fifty-Seven Crore and Forty Lakh Only)

Detailed Rationale

The revision in the ratings assigned to the bank facilities of IDL Explosives Limited is on account of decline in profitability margins in FY22 and 9MFY23 and deterioration in capital structure and debt coverage indicators FY22 with expectation of subdued performance in FY23.

The ratings continue to factor in long track record of the holding company (GOCL), strong promoter group and experienced management along with continued support from Hinduja Group, niche product segment, moderate operating cycle, good order book position and government opportunities.

However, the ratings strengths are partially offset by decline in profitability margins, deterioration in capital structure and debt coverage indicators, customer concentration risk, vulnerability of profitability to fluctuations in raw material price and concentration towards mining sector.

Key Rating Sensitivities:

Upward Factors

- Substantial & sustained improvement in the revenue & EBITDA margin while improving the debt protection metrics.

Press Release

Downward Factors

- Any further decline in revenue and/or EBITDA margin leading to a decline in debt protection metrics.
