Any further decline in revenue and/or EBITDA margin leading to a decline in debt protection metrics

Detailed Description of Key Rating Drivers

Key Rating Strengths

Long Track Record of the Holding Company (GOCL)

IDL is a 100% subsidiary of GOCL. GOCL was incorporated in 1961 for manufacturing industrial explosives, reflecting a track record of more than 5 decades. In the past, the company had forayed into various segments like lubricants, mining, real estate, wind energy, food chemicals, pharmaceuticals, etc. through various joint ventures/ subsidiaries. Currently, like IDL, it has its presence mainly in energetic & explosives with real estate and mining segments constituting a small proportion of revenue at present.

Strong Promoter Group and experienced Management

The company is a part of the Hinduja Group which came into existence in 1918. It is one of the largest diversified groups having presence in around 30 countries in sectors encompassing automotive, oil & gas, banking & finance, power, IT & BPO, media and healthcare. The day-to-day affairs of the company are currently looked after by Mr. Subhas Pramanik, Managing Director of IDL as well as GOCL. He is well assisted by a team of experienced management professionals whose experience in running various businesses is a key strength for IDL.

Demonstrated Support from Hinduja Group

The Hinduja group has provided timely and adequate financial support to IDL at various points in time. In FY18, the holding company, GOCL had infused equity in the company to the tune

of Rs.19.06 Crore. [Equity - INR 1.82 Crore & Premium - INR 17.24 Crore (@ Rs.95 per share)].

Niche Product segment

IDL operates in a niche product segment wherein it manufactures cartridge, Bulk explosives and cladded products which are mainly used in the mining sector. Also, it is in the process of developing new products which will find application in the defence, space and metal cladding, for which the company already has some small orders in place.

Strong gearing ratios

The overall gearing ratio (on TNW including Quasi Equity) of the Company is comfortable 0.55x as at FY19 & 0.61x as at FY20. The long-term debt to equity ratio stood comfortable at 0.11x as at FY20 (0.09x as at FY19). The Total outside liabilities to Tangible Net Worth of the Company also stood comfortable & improved from 1.66x as at FY19 to 1.44x as at FY20.

Improved Operating Cycle

The Average Operating Cycle of the Company has improved from 66 days as at FY19 to 60 days as at FY20, mainly on account of reduction in receivable days & an increase in the payment period, reflecting lower funds being blocked in working capital.

Good Order Book position

The orders on hand as on date aggregate to INR 443 Crore; of which Coal India Limited and its subsidiaries contributed INR 199 Crore and Singareni Collaries Company Limited contributed INR 183 Crore. These orders on hand of INR 443 Crore constitute 104% of FY20 turnover.

Government opportunities

The activity in the defence sector is increasing, especially with the stabilization of the 'Make in India' projects and initiatives. The niche areas which are catered to by the Company's Special Product and Metal Cladding Groups are coming into prominence and they expect to develop more sophisticated products for these niche markets.

Key Rating Weaknesses

Moderate profitability

Over a period of last 3 years, the Company's total income from operations has been at an average of INR ~430 Crore. However, the operating income of the Company has increased from INR ~414 Crore in FY18 to INR ~457 Crore in FY19, indicating a growth rate of 11%, however thereafter declined by 7% to INR ~427 Crore in FY20. The EBITDA margin also deteriorated to 4.94% in FY20 from 8.68% in FY19 due to an increase in raw material consumption cost in FY20.

Customer Concentration risk

The Company's top five customers accounted for around 71% in FY20 (76% in FY19) of the total revenue, reflecting high customer concentration risk for the company.

Vulnerability of profitability to fluctuations in raw material price

The basic raw materials required by the company are chemicals, metals etc. the prices of which are volatile in nature. Hence, the profitability of IDL is exposed to variations in raw material prices.

Concentration towards mining sector

The products manufactured by the company are mainly used in the mining sector, which is highly regulated. Any adverse changes in the regulatory and environmental framework are the key rating sensitivities.
