

Press Release

J G Spinning Mills Private Limited

August 09, 2024

Ratings

Facility	Amount (Rs. crore)	Current Ratings	Previous Ratings	Rating Action	Complexity Indicator
Long Term Bank Facilities	3.01	IVR BB+/ Stable (IVR Double B Plus with Stable Outlook) Withdrawn	IVR BB+/ Stable (IVR Double B Plus with Stable Outlook)	Rating reaffirmed and withdrawn	Simple
Total	3.01 (Rs. Three Crore and One Lakh Only)				

Details of Facilities are in Annexure 1. Facility wise lender details are at Annexure 2. Detailed explanation of covenants is at Annexure 3.

Detailed Rationale

Infomerics Ratings has reaffirmed and withdrawn the outstanding long-term rating of 'IVR BB+/Stable (IVR Double B Plus with Stable Outlook)' assigned to the bank facilities of J G Spinning Mills Private Limited (JGS) with immediate effect. The reaffirmation of the rating continues to derive comfort from the long track record of operations under experienced promoters, strategic location of the plant, adequate debt protection metrics, and comfortable operating cycle. These rating strengths are partially constrained by the significant drop in topline and net profits in FY24 (Provisional, refers to the period April 01, 2023 to March 31, 2024), relatively moderate scale of current operations, highly competitive and fragmented nature of the industry, and exposure to cyclicity, inherent in the textile industry. The withdrawal has been taken at the request of J G Spinning Mills Private Limited and 'No Objection Certificate' received from SIDBI that has extended the facilities rated by Infomerics. The rating is withdrawn in

Press Release

accordance with Infomerics' policy on withdrawal. Link to the withdrawal policy is provided below.

List of Key Rating Drivers with Detailed Description

Key Rating Strengths

Long track record of operations under experienced promoters

JGS, in its current form was established in 2003 by Mr. Manish Seksaria. As on date Mr. Seksaria has an experience of more than twenty years in the yarn manufacturing industry and during this period he has built strong relationship with many leading hosiery players in the country. Thus, the experience of Mr. Seksaria and his relationships with end users keeps JGS in good stead across cycles. Mr. Seksaria is ably assisted by other promoters, Mrs. Gunjan Seksaria, and Mrs. Shradha Agarwal who are also reasonably experienced in the yarn manufacturing sector.

Strategic location of the plant

JGS's manufacturing facility is located in Tirupur, Tamil Nadu, which is in close proximity to the plants of various end user across the value chain of the textile industry. This helps JGS in maintaining close relationships with its customers and supplying yarns to them with minimum lead time.

Adequate debt protection metrics

JGS' CC utilisation increased on March 31, 2024 (Provisional) to INR14.25 crore from INR8.88 crore on March 31, 2023 and its long term loans increased by INR3.04 crore on March 31, 2024 (Provisional). As a result of these and very limited accretion to networth in FY24 (Provisional) because of reduced profits, the overall gearing ratio increased from 1.09x on

Press Release

March 31, 2023 to 1.43x on March 31, 2024 (Provisional) while still remaining satisfactory. Long Term Debt Equity ratio also increased from 0.67x on March 31, 2023 to 0.79x on March 31, 2024 (Provisional) while still remaining satisfactory. ISCR dropped from 3.45x in FY23 (refers to the period April 01, 2022 to March 31, 2023) to 2.37x in FY24 (Provisional) while DSCR dropped from 1.91x in FY23 to 1.47x in FY24 (Provisional). However, both these ratios remained adequate.

Comfortable operating cycle

While the operating cycle increased from 51 days in FY24 (Provisional) from 32 days in FY23 primarily because of increase in average inventory days from 50 days in FY23 to 90 days in FY24 (Provisional), the operating cycle still continues to be comfortable.

Key Rating Weaknesses

Significant drop in topline and net profits in FY24 (Provisional)

While the EBITDA in absolute term dropped marginally from INR6.93 crore in FY23 to INR6.73 crore in FY24 (Provisional) despite significant fall in revenue, and this was possible because of a significant fall in raw cotton prices in FY24 (Provisional) as well as reduction in other operating costs in FY24 (Provisional) compared to FY23, the absolute PAT fell from INR1.62 crore in FY23 to INR0.69 crore in FY24 (Provisional) because of increased depreciation and interest and finance charges in FY24 (Provisional) compared to FY23. The topline fell from INR156.91 crore in FY23 to INR120.50 crore in FY24 (Provisional) because of a significant fall in cotton yarn prices in FY24 (Provisional).

Relatively moderate scale of current operations

The Total Operating Income declined from INR156.91 crore in FY23 to INR120.50 crore in FY24 (Provisional) primarily because of drop in cotton yarn prices. In both these years as well as in the past the scale of operations of JGS continued to be moderate.

Highly competitive and fragmented nature of the industry

The spectrum of the yarn industry in which the company operates is highly fragmented and competitive due to the presence of numerous players in India owing to relatively low entry barriers. Most players in the industry thus do not have pricing power and are exposed to the

Press Release

4 prices dictated by the large-scale spinners in India. On the raw material side, the prices of cotton are determined by the demand and supply situation and minimum support prices announced by the Government.

Exposure to cyclical, inherent in the textile industry

The textile industry is highly cyclical. Cotton and yarn prices fluctuate based on macroeconomic factors, including, amongst others, demand-supply scenarios, monsoons, etc. Adverse volatility in yarn and/or cotton prices will have an adverse effect on the company's performance.

Liquidity – Adequate

The company had a comfortable current ratio of 1.40x as on March 31, 2024 (Provisional). Current ratio is expected to remain between 1.37x and 1.52x during March 31, 2025 to March 31, 2027. The GCAs of each of the years between FY25 (refers to the period April 01, 2024 to March 31, 2025) and FY27 (refers to the period April 01, 2026 to March 31, 2027) are expected to cover the debt repayments due in the respective years. The Operating Cycle was 51 days in FY24 (Provisional). The average fund based working capital utilisation was high at 91.50% between April 2023 and March 2024. Cash and FD balance as on 31.03.2024 was INR4.53 crore.

About the Company

Press Release

J G Spinning Mills Pvt Ltd (JGS), a Coimbatore-based company, is engaged in manufacturing/sale of yarn and fabrics. The key promoter of the company is Mr. Manish Seksaria. The company was incorporated in 1991 as “J G Textiles” at Kolkata. Later, in 2003, the company purchased a sick unit at Coimbatore and shifted its registered office to Coimbatore and was named JGS. The commercial production started from January 2004. JGS has an installed capacity of 32,016 spindles to manufacture yarn in 25-40s counts.
