Ratings

The rating has been downgraded with revision in outlook to negative and moved to 'ISSUER NOT COOPERATING' category due to non-submission of information and lack of management co-operation.

Detailed Rationale

The rating revision is because of lack of adequate information regarding Namu Alloys Private Limited performance and hence the uncertainty around its credit risk. Infomerics Valuation and Rating Limited (Formerly Infomerics Valuation and Rating Private Limited) (IVR) assesses whether the information available about the entity is commensurate with its rating and reviews the same as per its policy.

The rating was due for review on February 06, 2025. IVR took up with issuer to provide required information vide multiple E-mail communications latest by March 13, 2025, and through various telephonic calls. Despite the best efforts of IVR to get the minimum required information for a review, the entity has not provided the same. In the absence of adequate information from the entity, IVR is unable to assess the entity's financial performance and its ability to service its debt and maintain a valid rating. Hence, on account of inadequate information, IVR is unable to assess the entity's financial performance and its ability to service its debt and maintain a valid rating. Accordingly, the lenders, investors and other users of this rating are requested to exercise adequate caution while using this rating as this rating may not adequately reflect the current credit risk profile of the company.
