#### **Detailed Rationale**

Datings

Informerics Valuation and Rating Private Limited (IVR) has assigned long term rating of IVR BBB- with a Stable outlook for the bank loan facilities of Numero Uno Clothing Limited (NUCL).

The rating draws comfort from the established track record of operations and experienced management, diversified customer base and geographical presence and satisfactory debt protection metrics and financial risk profile. However, these strengths are partially offset by working capital intensive nature of operations, intense competition in the industry and susceptibility of profitability to raw material price volatility.

The 'Stable' outlook indicates a low likelihood of rating change over the medium term. IVR believes NUCL's business risk profile will be maintained over the medium term. The company performance has improved in FY2023 as compared to FY2022. The industry outlook is also improving led by rapid digitisation of consumers and brands post-pandemic as well as favourable demand for Indian made readymade garments in domestic as well as in global markets.

IVR has principally relied on the standalone audited financial results of BSMPL upto 31 March 2022, FY2023 certified provisional results and projected financials for FY2024-FY2026, and publicly available information/ clarifications provided by the company's management.

#### Key Rating Sensitivities: Upward Factors

- Substantial improvement in the scale of operations with TOI above Rs. 310 crore and profitability margins
- Improvement in debt protection metrics
- Sustenance overall gearing below 0.40x

# **Infomerics Ratings**

## **Press Release**

#### **Downward Factors**

- Significant reduction in the scale of operations and profitability margins
- Deterioration in debt protection metrics and overall gearing

#### List of Key Rating Drivers with Detailed Description

#### **Key Rating Strengths**

• Established track record of operations and experienced management:

The company was initially setup in 1980 as a proprietorship concern, Hi-Fashion Clothing Co and the business of the same was taken over by NUCL from April 2007 and has a successful track record of more than three decades in the existing line of business. Overall activities of NUCL are managed by two directors with Mr. Narinder Singh Dhingra being the Managing Director. He has experience of more than 2 decades in the readymade garment business. He is ably supported by other director namely, Ms. Rohini Dhingra who have effective experience in existing line of business as well as supported by qualified and well experienced management team.

#### • Diversified customer base and geographical presence:

The company is selling its products through all formats such as large format stores, multiple brand stores, exclusive stores, distributors, institutional players, online etc. This network provides them access into newer markets and geographies. During FY2023 the company added 130 plus franchisee stores including 100 large format stores. Further the company has tied up with all Reliance Retail Stores such as Reliance Centro, Reliance Trends, Fashion factory etc. which will further increase revenue in coming years. It sells its product under the brands like NUMERO UNO, NU Blue, NU JNS, NU Black/Silver etc, which have become popular and known among the customers. The company has diversified geographical presence as their products are sold in PAN India. They have long term relationship with majority of its customers.

#### • Satisfactory debt protection metrics and financial risk profile:

In terms of the debt coverage indicators, the interest service coverage ratio (ISCR) and the debt service coverage ratio (DSCR) stood at 2.15x and 1.43x respectively in FY2023 (Provisional). The tangible networth has marginally improved to Rs. 116.60 crore in FY2023 (Provisional) from Rs. 112.83 crore in FY2022. The total operating income (TOI) improved to Rs. 202.00 crore in FY2023 (Provisional) from Rs. 171.30 crore in FY2022.

#### **Key Rating Weaknesses**

#### • Working capital intensive nature of operations:

NUCL's operations are working capital intensive in nature, supported largely by bank borrowings. The average utilisation of fund based working capital limits of the company stood high around ~87% during the last 12 months ending 31st March 2023. The company has large working capital requirements which are reflected in an elongated conversion cycle of 387 days in FY2023 (FY2022: 436 days). This happens due to the seasonal nature of business.

#### • Intense competition in the industry:

The readymade garments industry has many players because of low entry barriers, driven by limited capital and easy access to raw material. The intense competition in this industry will continue to exert pricing pressure and create a major impact on profitability.

#### • Susceptibility of profitability to raw material price volatility:

The readymade garments industry's profitability margins are highly correlated with fluctuations in fabric prices. The company does not have any long-term contracts with suppliers with regards to either quantity or price. However, it has several years of relationships. The readymade garments industry is fragmented and there is significant competition among the players in the industry due to which their bargaining power is limited. This restricts the players from fully passing on the input cost increases to customers or retaining any benefits of lower input costs. As a result, the profitability margins of the company are susceptible to the volatility in raw material prices.

**Analytical Approach:** For arriving at the ratings, IVR has analysed NUCL's credit profile by considering the standalone financial statements of the trust.

### **Press Release**

#### Liquidity – Adequate

The company has an adequate liquidity position. There are long-term secured borrowings from banks, amounting to Rs. 5.69 crore, as on 31st March 2023. Against a current portion of long-term debt (CPLTD) of Rs 2.87 crore in FY2023 (Provisional), the company had a cash accrual of Rs. 7.09 crore in FY2023 (Provisional). The company projected to generate cash accruals of Rs. 10.07 crore in FY2024 against a CPLTD of Rs. 1.81 crore. With the adequate expected cash accruals against repayments, the liquidity position will remain adequate.

#### About the Entity

Numero Uno Clothing Limited (NUCL) was initially setup by Mr. Narinder Singh Dhingra in 1980 as a proprietorship concern, Hi-Fashion Clothing Co and the business of the same was taken over by NUCL from April 2007. The company is engaged in manufacturing and trading of readymade garments for men and women segments. The company manufacturing unit is located at Dehradun, Uttarakhand and has warehouse facility located in Manesar, Haryana. The company sells its product under the brands like NUMERO UNO, NU Blue, NU JNS, NU Black/Silver etc, which have become popular and known among the customers.
