| <b>Total</b>               | <b>20.81</b><br><b>(Rupees twenty crore and eighty one lakhs only)</b>                  |  |  |  |

#### Details of Facilities are in Annexure 1

#### Detailed Rationale

The rating reaffirmation assigned to the bank facilities of Parekh Gadgets Private Limited (PGPL) derives strength from experienced management, strong business risk profile supported by sole distributorship for Reliance Jio and Oppo smartphones in Maharashtra except Mumbai and efficient working capital management. These strengths are partially offset by thin profitability margins, moderate financial risk profile buoyed by leveraged capital structure and fragmented industry coupled with exposure in consumer preferences.

#### Key Rating Sensitivities:

#### Upward Factors

- Significant and sustained growth in scale of operations with improvement in profitability and cash accruals
- Improvement in the capital structure and debt protection metrics on a sustained basis
- Managing working capital requirement efficiently leading to improvement in the operating cycle with improvement in liquidity.

#### Downward Factors

## Press Release

- Decline in the revenue and/ or profits leading to an overall deterioration in the financial risk profile of the company
- Moderation in the capital structure and/ or coverage indicators
- Elongation in the operating cycle with moderation in liquidity

### List of Key Rating Drivers with Detailed Description

#### Key Rating Strengths

- **Experienced management**

The company is currently headed by the promoter directors Mr. Tariq Rauf Parekh, Mr. Mohammed Rauf Parekh, and Mr. Zulkifl Rauf Parekh. The promoters have around two decades of experience in the business of mobile distribution. The promoters' experience, their strong understanding of local market dynamics, and healthy relations with suppliers will benefit the company going forward, resulting in steady growth in the scale of operations.

- **Strong business risk profile supported by sole distributorship for Reliance Jio and Oppo smartphones in Maharashtra except Mumbai**

The strong business risk profile of the company is marked by the improvement in its scale of operations. The revenue of the company witnessed a CAGR growth of ~29% to Rs. 432.72 Cr in FY2023 from Rs.259.73 Cr in FY2021 on account of increase in the sales volume due to overall boost in the demand in the industry. Again, the company has already achieved a revenue of Rs.501.32 Cr in 9MFY2024. In addition to this, PGPL has been diversifying its product profile over the years on a consistent basis from distribution of mobile phones to distribution of electronics (LED TV, LED bulb) and perfumery products under its own brand iMee. However, the mobile distribution remains the primary revenue generator for the company constituting to ~85% - 90% of its total revenue in FY2023.

Furthermore, PGPL is engaged in distribution of mobile devices across Maharashtra. PGPL is a zonal distributor of Reliance Retail Limited for Reliance Jio products and services for the entire Maharashtra region except Mumbai. Also, the company is also a super stockist for Oppo Mobiles India Private Limited for Realme and Oppo products across Maharashtra except the Mumbai region.

- **Efficient working capital management**

## Press Release

The working capital management of the company is efficient marked by the comfortable operating cycle, which stood at 47 days as on 31st March 2023 as compared to 44 days as on 31st March 2022. The operating cycle is predominantly driven by the low debtor and inventory level during the same period. The debtor period stood at 29 days as on 31st March 2023 and the inventory holding stood at 19 days as on 31st March 2023. The working capital management of the company will remain at similar levels over the medium term owing to the nature of the industry.

### Key Rating Weaknesses

- **Thin profitability margins**

The profitability margins of the company remained thin primarily attributable to the low value additive nature of the distribution business. The EBITDA margin stood at ~2.61% in FY2023 and the PAT margin of the company stood at 0.97 per cent in FY2023. Going forward, the improvement in the profitability margins of the company will be a key rating monitorable.

- **Moderate financial risk profile buoyed by leveraged capital structure**

The moderate financial risk profile of the company is on account of the leveraged capital structure and low net worth base. The tangible net worth of the company increased to Rs.21.87 Cr as on 31st March 2023 as compared to Rs.17.74 Cr as on 31st March 2022 on account of accretion of reserves. Further, gearing of the company stood high at 2.61x times as on March 31, 2023, as against 2.35x as on March 31, 2022. The Total outside Liabilities/Tangible Net Worth (TOL/TNW) stood high at 2.94x as on March 31, 2023, as against 2.67x as on March 31, 2022. However, the debt protection metrics of the company stood comfortable marked by Interest Coverage Ratio at 2.23x as on March 31, 2023, and Debt Service Coverage Ratio at 1.90x as on March 31, 2023. However, the total debt/EBITDA stood high at 5.04x as on March 31, 2023. The financial risk profile of the company will remain at a similar level due to high reliance on debt in the medium term.

- **Fragmented industry coupled with exposure in consumer preferences**

The mobile handset and electronic goods trading industry is highly competitive and fragmented in nature. The company's business is linked to the technological upgradations/advancements carried out in their respective products by its suppliers. This makes the company's business susceptible to changes in technology and the ability of its

## Press Release

suppliers/vendors to adapt to the same. Additionally, the company's margins are dependent on the change of its vendors policies as regards margins/ discounts allowed to distributors like the company.

Furthermore, with technological advancements, the market has seen a tremendous shift in consumer behaviour. As a result of the technological impact influencing consumer behaviour, most company face an unending challenge to meet consumer expectations. Any adverse technological shift would have an adverse impact on the revenues of the company.

### **Liquidity – Adequate**

The company will maintain adequate liquidity position going forward due to steady accruals. The gross cash accruals stood at Rs.4.83 Cr as on March 31, 2023 as against long term debt repayment of Rs. 0.20 Cr for the same period. The cash and bank balances of the company stood at Rs.0.01 Cr as on March 31, 2023. Further, the current ratio stood comfortable at 1.41x as on March 31, 2023 and the Quick Ratio also stood weak at 0.91x as on March 31, 2023. Further, the average fund-based limit utilisation remains high at around 89 per cent over the twelve months ended February 2024. Going forward, the company is likely to maintain adequate liquidity position supported by steady accruals.

### **About the Company**

Incorporated in July 2015, Maharashtra-based, Parekh Gadgets Private Limited (PGPL) is promoted by Parekh family under the directorship of Mr. Tariq Rauf Parekh, Mr. Mohammed Rauf Parekh, and Mr. Zulkifl Rauf Parekh. The company is engaged in distribution of mobile devices across Maharashtra. PGPL is a zonal distributor of Reliance Retail Limited for Reliance Jio products and services for the entire Maharashtra region except Mumbai. Further, the company is also a super stockist for Oppo Mobiles India Private Limited for Realme and Oppo products across Maharashtra except the Mumbai region. The company also sells LED lights, LED TV's and fragrances under its own brand name iMee. The electronics products are

## Press Release

assembled on job work basis where the company supplies the electronic parts to the job workers. Further, the company manufacture its perfumery products on job work basis.
