### **List of Key Rating Drivers with Detailed Description**

#### **Key Rating Strengths**

##### **Experienced promoters**

The promoters of Ramson and Bros (RB) have a long track record of more than four decades in the beer and liquor trading segment. Initially they were engaged in the distribution of beer of United Breweries Limited and IMFL brands of United Spirits Limited through Tulsi Trading Corporation (TTC). The business was originally started by Mr. Somjimal Fatnani, father of Mr. Ram Fatnani, in 1972. FY16 onwards, the business was split between RB and TTC. Mr. Ram Fatnani is actively associated with the business. He is well supported by his son, Mr. Bunty Fatnani for more than two decades.

##### **Established relationship with UB group**

The firm has an established relationship with United Breweries Limited and United Spirits Limited and is the main distributor of their products in its area of operation i.e., Raigad district. Both these suppliers together control 65-70% of market share in the liquor industry.

##### **Diversified clientele**

As the firm is into trading business of beer and IMFL, it caters to several small wine and beer shops and clubs in Raigad district and has a monopolistic position in the said region. The top 5 customers of the company accounted for ~13% of total operating income in 2022 Prov. indicating a highly diversified customer base.

## Press Release

### **Improved profitability leading to better scope of business**

Despite of the COVID-19 pandemic and its lockdown scenario in the country, the firm maintained a PAT Margin of 0.59% in FY21 (Provisional), as against that of 0.58% in FY20 and 0.56% in FY19. This was majorly owing to reduced interest expenses resulting from restricted use of working capital limits in FY21. This proves that the firm has the ability to maintain profitability in stressful times.

### **Moderate financial risk profile**

The firm's Total Operating Income improved marginally by ~3% from Rs. 187.58 Cr. in FY21 to Rs. 194.24 Cr. FY22 (P) owing to release of restriction during COVID-19 pandemic. Absolute EBITDA and PAT have improved in past two years and stood at Rs. 3.88 Cr. and Rs. 3.70 Cr. as against Rs. 2.68 Cr. and 1.32 Cr. in FY20. Subsequently, the EBITDA margin remained in similar range though in improving trend. The debt of the company is mainly comprising of working capital limits. The firm has a moderate capital structure marked by an overall gearing ratio improved from 0.35x in FY21 to 0.20x in FY22 Prov. The TOL/Net Adjusted TNW is low at 0.58x in FY22 Prov. And has been on an improving trend over the years as compared to 2.30x in FY18. The interest coverage ratio stood healthy at 29.51x in FY22 Prov. along with DSCR remaining in comfortable at 30.19 in FY22 Prov. as a result of lower financing costs and improved profitability in past two years.

### **Key Rating Weaknesses**

#### **Prices controlled by manufacturers**

The firm does not have any control over the pricing of the products that it distributes. The prices are closely controlled by the manufacturers, United Breweries and United Spirits. Hence, RB has limited flexibility in terms of pricing and consequently the margins earned by the firm are restricted to that extent.

## Press Release

### **Exposure to regulatory changes**

Ramson & Bros, like other players in the liquor business, remains exposed to changes in the legal and regulatory environment such as close monitoring of sales, revision of tax rates, ban on liquor sales, etc.

### **Withdrawal from the partners' capital**

There is very less restriction on the partners as regards to withdrawal of capital from the business. They may do so at any time and to any extent. Any withdrawals from the capital account is a key monitorable for the rating of the entity.

### **Competition from established brands**

The firm is exposed to the risk of losing market share to brands that are competing against the brands of UB group. However, the prime position of the UB group brands in the market provides comfort.
