### Press Release

#### **Detailed Rationale**

Infomerics Ratings has upgraded/assigned its rating assigned to the bank facilities of SCPL as it derives its comfort from strong revenue growth with improved operating profitability, a strong order book position, a diversified customer base, and comfortable debt protection metrics. However, these rating strengths remain partially offset by elongated working capital requirements and the competitive and fragmented nature of the industry.

The outlook is "Stable" on account of sustained improvement in total operating income along with the benefit derived from experienced promoter.

### **Key Rating Sensitivities:**

### **Upward Factors**

- Substantial improvement in the scale of operations along with profitability on a sustained basis.
- Significant improvement in working capital cycle.

#### **Downward Factors**

- Any delays in execution of projects leading to decline in revenue and/or overall decline in profitability leading to deterioration in debt protection metrics.
- Any increase in working capital cycle leading to deterioration in liquidity.

### List of Key Rating Drivers with Detailed Description

#### **Key Rating Strengths**

Strong revenue growth with improvement in operating profitability

Shrushti Group revenue has increased by 44% on y-o-y basis to Rs.149.52 crore in FY24(Prov) (period refers from April 01, 2023, to March 31st, 2024) with timely execution of orders. EBITDA margins improved to 16.09% in FY24 (P) (FY23:14.12%) due to strong order execution and operating leverage. Net profit margin improved to 8.13% in FY24, from 5.32% in FY23.

### **Press Release**

### Strong Order Book Position and Diversified Customer Base

As on 30 September 2024, SCPL has strong order of Rs. 917.51 crore (6x of FY24(P) revenue). These orders are expected to be executed over FY25-FY27 reflecting strong revenue visibility. Furthermore, the order book is well diversified, across all the segments with strong counterparties which consists of NHAI, BHEL and Power Finance Corporation. This diversification signifies a low concentration risk regarding both customers and segments.

### • Comfortable debt protection metrics

Shrushti Group debt protection metrics remained comfortable, marked by an overall gearing, including quasi equity, of 0.75x as on FY24 (FY23: 1.05x). The adjusted tangible net worth increased to Rs. 65.60 crore in FY24 (FY23: Rs. 44.85 crore) due to accretion of profits to reserve. The interest coverage ratio and total debt to NCA at 3.26x and 3.82 years, respectively, as of FY24 (FY23: 1.53x and 7.47 years).

### **Key Rating Weaknesses**

#### Elongated working capital

SCPL has elongated working capital reflected by higher collection days of 234 at the end of FY24 (P) (FY23:303) as 60% of the revenue SCPL recorded during 4QFY24. Net working capital cycle stood at 148 days at the end of FY24 (P) (FY23:152 days), with higher creditors days (FY24(P):177, FY23:254). As per management, with diversification of order book collection days are expected to reduce from FY25 onwards and it would be key monitorable.

### Sector is characterized by a high level of fragmentation and intense competition, leading to substantial price wars.

The domestic infrastructure and construction sector is densely populated, with numerous players of different sizes and capabilities. The sector experienced a boom in the past, leading to a surge in the number of participants. Although competition is generally considered positive, the concern arises from a few players resorting to
