

Press Release

Starwing Developers Private Limited (“SDPL”)

March 22, 2024

Ratings

Instrument / Facility	Amount (Rs. Crore)	Current Ratings	Rating Action	Complexity Indicator
Long Term Bank Facilities	57.30	IVR BB+/Stable (IVR Double B Plus with Stable Outlook)	Assigned	Simple
Proposed Long Term Bank Facility	17.70	IVR BB+/Stable (IVR Double B Plus with Stable Outlook)	Assigned	Simple
Total	75.00	(Rupees Seventy - Five Crore Only)		

Details of Facilities are in Annexure 1

Detailed Rationale-

IVR has taken a combined approach for arriving at the ratings. IVR has combined the cashflows of two projects i.e. Stellar Heights and I-Stay being executed in SDPL and Starwing Real Estate company (SREC) respectively, both the entities are part of Starwing group. The cashflows from both the above-mentioned projects will be utilised to service the existing loans of SDPL and SREC.

SDPL serves as the flagship entity of Starwing Group through which all requisite loans are procured, and these loans are then categorized as either Project Loans or General Corporate Loans, are subsequently channelled to various Special Purpose Vehicles (SPVs), Subsidiaries, and Associate Concerns to facilitate project completion.

SREC operates as an SPV specifically established for the Slum Rehabilitation Authority (SRA) project, focusing on the development of Project “I-Stay”. SDPL holds 99% share through I-Stay Real Estate Private Limited in the partnership firm SREC.

Press Release

The ratings assigned to the bank facilities of SDPL derive strength from experienced promoters and favourable location of the project. The rating is however constrained on account of modest project execution and saleability risk, geographically concentrated revenues, and cyclical nature of the real estate industry, subject to regulations.

Key Rating Sensitivities:

Upward Factors

- Scheduled progress made in completion of the projects.
- Sale of project inventory at competitive price generating adequate cash flow.

Downward Factors

- Delay in completion of projects.
- Significant Cost overrun of the projects
- Weaker than anticipated sales performance and lower than expected collections / customer advances leading to cash flow mismatch.

List of Key Rating Drivers with Detailed Description

Key Rating Strengths

- **Favourable location of the project with amenities and connectivity**

The ongoing project, “Stellar Heights” is located in Andheri, Marol area in Mumbai which provides direct connectivity to all the major points of the city. The project enjoys proximity to essential amenities and physical and social infrastructure like highways, domestic and international airports, Railways, metro lines, schools & Colleges, shopping malls, hospitals, restaurants etc. The demand for residential properties remains high, driven by Mumbai's status as a financial and commercial hub.

Press Release

- **Experienced promoters and sustained execution capabilities**

SDPL is a part of Mumbai based Starwing Group promoted in 1989 by Mr. Rajeev Dube, a civil engineer having more than 30 years of experience in promoting, developing, and managing businesses in construction, property, and real estate development. The Starwing Group has successfully completed and delivered 22 projects till date with a total saleable area of more than 12 lakh Sq. ft. in prime area of Andheri, Vakola, and Santacruz area of Mumbai.

- **Healthy cashflow expected from the project**

The company has already received Rs. 10.22 crore out of total agreement value of Rs. 29.34 crore from sold area of 10,647 Sq. ft. (~49% of total available sale area). The receivable from the sold area is Rs. 19.12 crore and healthy cashflow of ~Rs. 36.00 crore is expected in coming years on account of sale of remaining inventory due to favourable location.

Key Rating Weaknesses

- **Project Execution Risk**

The construction of Stellar Heights project is in nascent stage and only 17% of physical construction is completed as of December 2023, the scheduled project completion date as per RERA is by June 2026. Total envisaged cost of the project is Rs. 54.67 crore of which Rs. 7.00 crore (~13%) will be financed from own funds, Rs. 25.00 (~46%) from bank debt and rest Rs. 22.67 crore (~42%) from customer advances, thus the company is majorly dependent on advances from customers for funding the project. So, if the company is unable to receive timely advances as envisaged from the customer, then cash flow will be impacted, which might lead to delay in project execution which is key monitorable.

Press Release

- **Geographical concentration of revenues and competitive pressures**

All the past projects executed by the company are located in Mumbai region and the ongoing project Stellar Height is also located in Mumbai at Andheri, the region accounts for 100% of the saleable area / revenue of the company resulting in geographical concentration hence any downturn in micro market may impact the cash flows adversely, also there are many residential projects being developed in the vicinity of Andheri, hence the project would face competitive pressure.

- **Cyclical nature of the real estate industry, subject to regulations**

The real estate in India is highly fragmented and is capital intensive in nature. The life cycle of a real estate project is long and the state of the economy at every point in time, right from land acquisition to construction to actual delivery, has an impact on the project. This capital-intensive sector is extremely vulnerable to the economic cycles. Adverse movement in interest rate affects the real estate players in both ways by hampering demand as well as increasing the cost of construction. The sector is also subject to multiple regulatory approvals from respective authorities; thus, the timely receipt of regulatory approval is critical for the timely launches of new project phases and future sales/collections.

Analytical Approach: Combined Approach

IVR has taken a combined approach for arriving at the ratings. IVR has combined the cashflows of two projects i.e. Stellar Heights and I-Stay being executed in SDPL and SREC respectively, both the entities are part of Starwing group. The cashflows from both the above-mentioned projects will be utilised to service the existing loans of SDPL and SREC.

[Consolidation of Companies](#)

Liquidity – Adequate

SDPL's liquidity appears to be adequate with current ratio of 4.67x as on March 31, 2023 and Gross Cash Accruals of the company stood at Rs.4.51 crore in FY23 along with the resourcefulness of the promoters which is evident from the fact that the ongoing projects are funded through a mix of promoter's contribution, customer advances and external debt. Unencumbered Cash and Bank balance of the company was Rs. 3.28 crore as on March 31, 2023.

About the Company

SDPL, incorporated on April 20, 1994, is flagship company of Starwing Group which was founded by Mr. Rajeev Dube in 1989. Mr. Dube has more than 30 years of experience in real estate industry as developer. The company undertakes real estate projects in Mumbai region. The group has successfully competed and delivered around 14 residential and commercial projects i.e. development of more than 12 lacs sq. ft of area mainly in Andheri, Vakola, and Santacruz area of Mumbai. Some of the notable developments by the Group are Kaatyayni Heights, Apurva Residence, Kaatyayni Residency and Kaatyayni Business Centre.
