**Details of Facilities are in Annexure 1. Facilities wise lender details are in Annexure 2. Detailed explanation of covenants is at Annexure 3.**

#### Detailed Rationale

Infomerics Ratings has upgraded its ratings on the debt facilities of Sudharma Infratech Private Limited (SIPL) after studying the bank statements of all the lenders which confirms that the company has been servicing all its loan obligations on timely basis from April 2024 till date. The company is expected to demonstrate steady revenue growth over the projected period of three years given its favourable track records in the civil and road infrastructure space.

The Stable outlook reflects Infomerics' view that the company's strong order book provides revenue visibility for at least two years and the company is expected to maintain healthy EBITDA margins translating into healthy and stable debt coverage ratios.

#### Key Rating Sensitivities:

##### Upward Factors

- Increase in order book and timely execution of the same.

## Press Release

- Improvement in operating cycle

### **Downward Factors**

- Decline in profitability and elongation in operating cycle

### **List of Key Rating Drivers with Detailed Description**

#### **Key Rating Strengths**

- **Extensive experience of the promoters and management team**

SIPL has established an operational track record of more than a decade in construction of various civil infrastructure, roads, and bridges. Mr. R.V. Sudhakar (Managing Director), is a first-generation entrepreneur having three decades of experience in the construction sector. The extensive experience of the promoter and successful track record of operation has helped the company in acquiring customers. The directors are well supported by a team of experienced and qualified professionals.

- **Healthy order book indicating near term revenue visibility**

The company has a good track record of successfully executing various road and highway projects and has a good order book based on its past execution capabilities and timely deliveries. The company has completed many major as well as minor projects and an unexecuted order book of around INR ~402.27 crores as of September 30, 2024.

- **Healthy revenue growth and profitability margins**

The operating Income of the company grew by ~25.74% to Rs. 115.28 crore for FY24 (Prov.) on the back of increase in order book and timely execution of high value projects across its electrical and civil business unit. The EBIDTA and PAT of the company also registered a robust growth of ~33.15% and 52.01% respectively for FY2024 (Prov.). EBIDTA margin of the company increased to 8.83% for FY2024 (Prov.) from 8.34% for FY2023 whereas PAT margin stood at 3.29% for FY2024 (Prov.) from 2.69% in FY2023.

#### **Key Rating Weaknesses**

## Press Release

- **Working capital intensive operations**

The company's operations are working capital intensive in nature as reflected by its Operating cycle days of around 130 days as on March 31, 2024 (Prov.). The average collection period remains high at 78 days in as on March 31, 2024 (Prov.) however improved from 91 days as on March 31, 2023. The average creditor period stood to 42 days as on March 31, 2024 (Prov.) from 57 days as on March 31, 2023. The company is highly reliant on working capital borrowings and its utilization level were at an average of ~97.56% for 12 months ended March 2024.

- **Concentrated customer base**

The present order book mainly consists of rehabilitation, up-gradation, and repair of road construction. And 93% of the order is from 3 clients only. This implies very high dependency on a few clients.

- **Highly fragmented & competitive nature of the construction sector with significant price war coupled with tender-based nature of business**

The domestic infrastructure works sector is highly crowded with presence of many players with varied statures & capabilities which limits the pricing power of the companies. Largely tender based procurement mechanism also increases the competition to an extent especially amongst the entities which have a limited geographic distribution of projects.
