Short Term Bank Facilities	23.00	IVR A3 (IVR A Three)	Assigned	Simple
Long Term /Short Term Bank Facilities	0.70	IVR BBB-/Positive/ IVR A3 (IVR Triple B Minus with Positive Outlook / IVR A Three)	Assigned	Simple
Total	67.00 (Sixty seven crore only)			

Details of Facilities are in Annexure 1

Detailed Rationale

The ratings assigned to the bank facilities of V-Marc India Limited (VIL) derives strength from its long track record of operations under experienced promoters, pan India presence with diversified dealer network, its reputed clientele base and revenue visibility backed by its healthy order book. The ratings also favourably factor its stable financial performance with improvement in profitability in past two fiscals ended in FY22 and its comfortable capital structure. However, these rating strengths are constrained due to susceptibility of its profitability to fluctuation in input prices, on-going capex leading to project stabilisation risk, elongated operating cycle and intense competition in the industry.

Key Rating Sensitivities:

Upward Factors

- Growth in scale of operations with continuous inflow of orders and improvement in profitability leading to improvement in cash accruals on a sustained basis.
- Sustenance of the capital structure with TOL/TNW to remain below 2x and improvement in debt protection metrics with interest coverage ratio remained over 3x on a sustained basis.

Press Release

- Improvement in liquidity with improvement in the operating cycle and improvement in average working capital utilisation

Downward Factors

- Moderation in the scale of operations and/or deterioration in profit margin impacting the liquidity and debt coverage indicators.
- Moderation in the capital structure with overall gearing moderated to more than 1.5x and/or moderation in interest coverage to below 2x
- Elongation in operating cycle leading to deterioration in the liquidity position

List of Key Rating Drivers with Detailed Description

Key Rating Strengths

- **Experienced promoters with long track record of operation in wires and cables industry**

Mr. Vikas Garg has about 23 years of experience in the business of wires & cables since 1996 in trading of wires and cables. He started the business as partnership and gradually converted into listed company. Mrs. Meenakshi Garg also has an experience of more than 14 years of trading business of wires and cables. Also, the higher management of the company is highly experienced with relevant background.

- **Pan India presence with sound dealer network**

The company's dealer network is present in 19 states across India with 600 dealers. Also, the company is an authorised dealer for various Discoms.

- **Healthy order book position providing revenue visibility**

VIL's unexecuted order book position as on February 28, 2022, stood at Rs.132.70 crore which is to execute in next one year indicating a healthy revenue visibility. The total work order includes ~46% from state electricity boards, EPC turnkey contractor purchase order ~16%, sale to authorised channel partner and company depo in various states.

- **Reputed clientele with low counter party payment risk**

VIL has a diversified client base comprising various government discoms, departments and reputed private players. Some of the reputed clientele of the company include Uttarakhand Power Corporation Limited (UPCL), Chhattisgarh State Renewable Energy Development Agency (CREDA), Punjab State Power Corporation Limited, Paschimanchal Vidyut Vitran

Press Release

Nigam Limited, Haryana Vidyut Prasaran Nigam Limited, Some of the renowned steel plants like Bokaro Steel Plant, Durgapur steel plant, Rourkela Steel plant, IISCO Steel Plant Burnpur, Salem, SAIL etc. The repeat orders received from its clientele validates its capabilities. In spite of possessing low bargaining power with its customers, its clientele base has sound credit risk profile, which does reduce the counter party payment risk to a certain extent.

- **Stable financial performance with improvement in profitability**

The financial performance of the company remained stable over the past three fiscals despite moderation in its topline in FY20. The total operating income declined from Rs.204.95 crore in FY19 to Rs.171.21 crore in FY20 mainly due to decrease in sales in from Government companies owing to the outbreak of COVID-19 pandemic. Since maximum sales is booked in last quarter especially in the month of March, execution of contracts on account of lockdown restrictions arising out of COVID 19 pandemic. During FY21, the company witnessed marginal growth of ~2% with the increase in orders. Further, the company has estimated to achieve a revenue of Rs.181 crore in FY22. In spite of moderation in top line, EBITDA margin improved to 8.38% in FY21 from 6.37% in FY19 (7.88% in FY20). Further, GCA also improved to Rs.7.74 crore in FY21 from Rs.5.98 crore in FY19 (Rs. 5.91 crore in FY20) due to increase in PAT. During FY22, the profitability and cash accruals of the company has also improved with rise in absolute EBITDA.

- **Comfortable capital Structure**

The overall gearing ratio remained comfortable and improved marginally to 1.17x as on March 31, 2021, from 1.22x as on March 31, 2019 (1.27x in FY20) due to accretion of profit to net worth. TOL/TNW also remained satisfactory at 2.13x as on March 31,2021. The overall gearing ratio and TOL/TNW estimated further to improve as on March 31,2022.

Key Rating Weaknesses

- **Susceptibility of operating margin to fluctuations input prices**

VIL's operating margin is susceptible to volatility in its input prices especially aluminium. The company procures raw material from majors like NALCO, Hindalco along with various traders. Any upward movements in the prices of aluminium, the primary raw material used in the manufacture of cables and conductors can have an adverse effect on the profit margins.

- **Ongoing capex leading to project stabilization risk**

Press Release

The company is setting up new facility to manufacture Electrical Wires produced by GAS Cured CCV technology and increase the installed capacity to 75120 km p.a. which will produce 66KV underground wires. The cost of project for setting up of proposed manufacturing unit is estimated at Rs.40.92 crore, which is proposed to be funded through Bank's Term Loan of Rs.21.65 crore, Rs.15.00 crore as equity and remaining Rs.4.27 crore from its internal accruals or to be infused as equity for setting up of proposed unit. The project is running as per schedule and is expected to start operation from last-half of September 2022.

- **Stretched operating cycle with elongated receivable**

The receivable cycle of VIL increased to 96 days in FY21 from 46 days in FY19 (86 days in FY20), on account of elongated payment cycle from government companies due to the impact of pandemic, which is generally released in the month of March which was impacted by lockdown. The working capital cycle increased to 121 days in FY21 from 84 days in FY19 (111 days in FY20) as the order could not be executed due to the restrictions from government companies for Covid 19. Average creditor period also increased to 91 days in FY21 from 23 days in FY19 (71 days in FY20) accordingly to match the cash flow of the company.

- **Exposure to intense competition; leading to range-bound margins**

The industry is characterized by high fragmentation with large number of unorganised players, constraining the pricing power of organised sector players. Apart from the unorganized sector, VIL also faces competition from the organized sector players. The EBITDA margins have remained range-bound between 8-9 % over the last few years given the intense competition and fragmentation in the industry.

Liquidity – Adequate

Press Release

Liquidity position of VIL remain adequate characterized by expected sufficient cushion in cash accruals of Rs.14.70 crore and Rs.34.27 crore in FY23 and FY24 respectively vis-à-vis its repayment obligations of about Rs.1.08 crore in FY23 and Rs.2.73 crore in FY24. However, the fund based and non-fund based bank limits remain utilized ~95% and ~92% respectively during the past 12 months ended March 2022 indicating a limited liquidity buffer.

About the Company

V-Marc India Limited (VIL) was originally formed in 1996 as a partnership firm carrying on its business under the name & style of “Asian Wires & Cables Industries manufacturing and marketing firm dealing in electrical wires & cables for modern needs with brand name “V-Marc”.
