Press Release

Detailed Rationale

As on 16 April 2025, the company has got fresh term loan sanction of Rs 630.00 Crore from Union Bank of India, Punjab Sind Bank and Shivalik Small Finance Bank. Yes bank has enhanced its WCDL limits by Rs 100.00 crore. CGCL has also raised fresh NCD of Rs 20.00 crore and there has been reduction in term loans due to periodic repayments. Accordingly, the proposed and outstanding limits/instruments have been reclassified.

Reaffirmation of ratings assigned to the various credit facilities of Capri Global Capital Limited (CGCL) continues to derive comfort from the experienced board of directors and management team, comfortable capital adequacy ratio (CRAR) and leverage position, sustained growth in AUM and earnings profile, average asset quality, broad network coupled with strong risk management systems and diversified product profile. However, ratings are constrained by geographical concentration of operations and inherent risks associated with lending business.

The outlook continues to be “Positive” on the back of expectations from Infomerics that the company will achieve significant growth in overall AUM, specifically in gold loan segment backed by strong capitalisation levels, increased branch network and co-lending tie-ups which is expected to result in improved profitability while maintaining stable asset quality.

Key Rating Sensitivities:

Upward Factors

- Substantial and sustained growth in its loan portfolio, while maintaining healthy asset quality, strong capitalization, and profitability on a consolidated basis

Downward Factors

- Lower than expected growth in consolidated AUM impacting the earnings profile and/or decline in liquidity and capitalization from the current levels.
- Substantial increase in slippages/decrease in collection efficiency resulting in deterioration in consolidated asset quality.

Press Release

List of Key Rating Drivers with Detailed Description

Key Rating Strengths

Sustained growth in AUM and earnings profile

Capri group has an established network of branches through PAN India, robust policies, processes and risk management systems coupled with co-lending tie ups with multiple bank's has helped them to grow their AUM on a sustained basis. On a consolidated basis, CGCL AUM witnessed a YoY growth of 55% in 9MFY25 and stood at Rs 20,662.90 crore (Rs 15,652.94 crore in FY24 (period refers to 01st April 2023 to 31st March 2024) and Rs 10,319.97 crore in FY23). Consolidated AUM majorly comprises of gold loans (34.35%), MSME loans (23.83%), Home loans (22.48%) and construction finance (18.10%) as on 31 December 2024. On the back of which the total income and PAT on a consolidated basis increased to Rs 2,314.20 crore and 279.41 crore respectively in FY24 (Rs 1,465.00 crore and 204.65 crore respectively in FY23). For 9MFY25, the consolidated income and PAT has further improved to Rs 2292.68 crore and Rs 300.79 crore respectively.

CGHFLs AUM on a standalone basis has also witnessed consistent growth since inception and has reached an AUM of Rs 4,647.61 crore as on 31 December 2024 (Rs 4,209.10 crore as on 31 March 2024). Total income and PAT of CGHFL on a standalone basis stood at Rs 443.15 crore and Rs 42.98 crore respectively for 9MFY25. (Rs 487.19 crore and Rs 71.70 crore respectively for FY24).

Healthy capitalization

The group's capital structure remains healthy with consolidated Networth of Rs 3,788.98 crore and a comfortable gearing of 2.75x in FY24 with healthy CRAR levels. Total CRAR of CGCL on a standalone basis stood at 22.87% as on 31 December 2024 (26.63% in FY24) and total CRAR of CGHFL stood at 29.32% as on 31 Dec 2024 (30.52% in FY24) which is well above the regulatory requirements, giving the group sufficient headroom to continue its growth path and grow its AUM further. The group has maintained healthy capitalisation despite the substantial growth witnesses in AUM levels in the last 3 years reflecting the capital raising ability of the promoters. The promoters had raised Rs 1,440 crores in FY24 through rights issues and are in process of raising additional funding to the tune of ~Rs 2000.00 crore through

Press Release

equity/debt/other instruments which will further improve their capitalisation and boost their AUM growth.

Average asset quality

On a standalone basis, CGCLs asset quality has improved with GNPA and NNPA reducing to 1.67% and 1.02% respectively for 9MFY25 (2.16% and 1.18% respectively for FY24). The improvement in asset quality of CGCL is mainly on account of improved collection efficiency leading to reduction in fresh slippages during the period.

CGHFLs asset quality on a standalone basis has marginally increased with GNPA and NNPA increasing to 1.67% and 1.06% respectively in 9MFY25 (1.31% and 0.80% respectively in FY24). The asset quality is expected to moderate further as the portfolio gets seasoned.

As per management CGCL's entire exposure to all its borrowers is adequately secured, which ensures minimum credit loss and CGCL has also taken necessary steps to reduce the overdue. Also, the collection efficiency remains comfortable at ~98% for the last 12 months ending December 2024. Going forward, the ability of the company to control incremental slippages and maintain healthy asset quality in the near to medium term will remain a key rating monitorable.

Broad network coupled with strong risk management systems

On a consolidated basis, CGCL has a wide network of over 1066 branches in 19 state and UTs as on 31 December 2024 PAN India and on a standalone basis, CGHFL has a network of 144 branches across 11 states. CGCL and CGHFL have adopted robust practices to build a strong risk management system supported by an efficient MIS platform for effective monitoring of its portfolio. It has a well-defined credit and operations policy in place. The credit underwriting policy ensures rigorous risk assessment with clear division of the sourcing and credit underwriting teams. Field investigation and risk containment units are strictly followed to reinforce the focus on risk mitigation. The collection and recovery teams are independent of the sourcing team to reduce the likelihood of any malpractice.

Diversified product profile

Press Release

On a consolidated basis, CGCL has a diversified product profile/base of MSME loans, construction finance, indirect lending, housing loans and gold loans. Indirect lending is financing to other NBFCs engaged in MSME Lending, Microfinance and fintech based NBFCs. CGCL has entered into corporate selling arrangements with commercial banks to distribute the banks new car loan products for a fee consideration. This is an asset light model, and the current tie-ups are with more than 12 banks. During FY25, CGCL has launched roof-top solar and micro-LAP products, which will further diversify its loan book. Further, the group has entered into co-lending tie-ups with various public sector and private sector banks for MSME, gold loans and housing loans. Through this collaboration, CGCL aims to disburse loans pan-India. Moreover, the company is planning to further diversify and improve its revenue source in the near term.

Experienced Board of Directors and Management Team

CGCL's board of directors has qualified professionals with experience in varied fields such as Banking, Insurance, Capital Markets, and the Indian Administrative Service. It has a team of experienced personnel who have been associated with the company for a long period and heading different verticals relating to lending, Banking & Finance, Risk & Portfolio Management, etc. The support functions of Accounts, Finance and Secretarial Departments are also headed by seasoned professionals with vast experience in the lending business. The group has an enterprising and professional management team which will enable them to scale up its operations, while managing the risks inherent in this type of business.

Key Rating Weaknesses

Geographical concentration of operations

CGCL's operations are regionally concentrated with top three states constituting ~83% of MSME portfolio, ~77% of Construction Finance portfolio, ~66% of housing loan portfolio and ~54% of gold loan portfolio as on 31 December 2024. The geographical concentration remains moderately high in MSME and construction finance segment. The company is of the opinion that the geographical concentration in construction finance is largely due to concentration of real estate advances in these pockets, and it rather helps them in better control over the market, monitoring and recovery. In case of gold loan portfolio, since the product was launched

Press Release

in August 2022 and is in expansion mode, the concentration is high. As the company expands its presence, the issue of geographical concentration is expected to be addressed gradually.

Analytical Approach: Consolidated

Infomerics has consolidated the business and financial risk profiles of Capri Global Capital Limited (Parent Company) and its wholly owned subsidiary Capri Global Housing Finance Limited. This consolidation is in the view of the common promoters, shared brand name and strong financial and operation synergies.

Liquidity: Strong

The group's liquidity remains strong with consolidated Tangible Networth of Rs 3,788.98 crore and a comfortable gearing of 2.75x in FY24. At consolidated level, the group has a liquidity including unutilised sanctions and securitisation limits of Rs 2,420.68 crore as on 31 December 2024 against total debt repayments of around Rs 2,866.00 crore for the next 6 months ending June 2025 reflecting strong liquidity cushion. Also, the group has adequately matched ALM profile with positive cumulative mismatches across various buckets as per the ALM profile dated 31 Dec 2024.
