

Press Release

K.R.C. Infraprojects Private Limited

June 15, 2021

Ratings:

(INR Crore)

Facility	Amount	Ratings	Rating Action
Long Term Fund Based Bank Facilities – Cash Credit/ Drop Line Overdraft/ Overdraft	13.00	IVR BBB-; Credit Watch with Developing Implications (IVR Triple B Minus with Credit Watch with Developing Implications)	Assigned
Proposed Long Term Fund Based Bank Facilities – Cash Credit	12.00	IVR BBB-; Credit Watch with Developing Implications (IVR Triple B Minus with Credit Watch with Developing Implications)	Assigned
Short Term Facility Non-Fund Based - Bank Guarantee	25.00	IVR A3; Credit Watch with Developing Implications (IVR A Three; with Credit Watch with Developing Implications)	Assigned
Total	50.00		

Details of Facilities are in Annexure 1

Detailed Rationale:

The aforesaid ratings assigned to the bank facilities of K.R.C. Infraprojects Private Limited continue to derive strength from its experienced promoters & management team, proven project execution capability, Strong order book reflecting satisfactory medium term revenue visibility, y-o-y improvement in EBITDA margin and PAT Margin and comfortable capital structure and healthy debt protection metrics. However, the rating strengths are partially offset by degrowth in revenues during FY21; expected to improve in the short run, geographical & client concentration of order book, highly fragmented and competitive nature of the sector and susceptibility of operating margin to volatile input prices.

The Credit watch with developing implications is assigned monitor the company's performance as a principal contractor and company's ability to timely tie up incremental funding requirement with the lenders.

Press Release

Key Rating Sensitivities:

Upward Factors

- Substantial & sustained improvement in the Company's revenue and profitability leading to sustained improvement in debt protection metrics.

Downward Factors

- Any decline in the scale of operation and profitability leading to deterioration of debt protection metrics.

Key Rating Drivers with detailed description

Key Rating Strengths:

Experienced promoters & management team:

The company is being managed by experienced directors and promoters. Collectively, they have rich experience in the industry and are instrumental in setting up and developing the company. Having operated in industry since last 3 decades, the promoters have established a strong network with suppliers and customers. The company has a team of experienced and capable professionals, having over a two decade of experience in the segment, to look after the overall management. The day-to-day operations of the company are looked after by the senior management having considerable experience required in the current line of business.

Proven project execution capability:

Over the past years, the company has successfully completed many projects in Maharashtra, Uttar Pradesh, Madhya Pradesh, Rajasthan & Haryana and ensured timely completion of its projects. Also, the company receives repeat orders received from its clientele accrediting its execution capability. Currently, the company has unexecuted orders from some of the reputed clients like National Highways Authority of India (NHAI), Border Roads Organisation (BRO) and Ministry of Road Transport and Highways (MoRTH).

Strong order book reflecting satisfactory medium term revenue visibility:

The company has a strong unexecuted order book of INR 1,904.97 crore as on 30th April 2021 (includes L1 order worth of around INR 937.00 crore) with orders across 6 contracts which is about 15 times of its FY21 revenue. As per the completion schedule orders need to be completed by FY24.

Y-o-Y improvement in EBITDA margin and PAT Margin:

There has been a constant improvement in the EBITDA margin and PAT Margin of the company. EBITDA margins and PAT Margin has improvement for the last three years ending

Press Release

FY21. EBITDA margins improved to 11.31% in FY21 from 9.46% in FY20. PAT Margin improved to 3.98% in FY21 from 4.82% in FY20.

Comfortable capital structure and healthy debt protection metrics:

Company's capital structure remained comfortable as on the past four account closing dates ending FY21. The overall gearing ratio was around 0.73x in FY21 (provisional) (FY20: 0.83x) and Long debt-equity stood at 0.32 times as on 31 March 2021 as against 0.39 times as on 31 March 2020. The financial risk profile of the company is healthy marked by healthy net worth, debt protection metrics and debt coverage indicators. The net worth of group stood at INR 29.71 Crore as on 31 March 2021 as against INR 23.86 Crore as on 31 March 2020. Total debt increased to INR 21.75 Crore in FY21 from INR 19.90 Crore in FY20. Debt protection parameters also remained healthy with interest coverage ratio of 6.75x in FY21 and 8.25x in FY20. Total Debt / GCA ratio was at 2.10 times in FY2021. Further, TOL/TNW stood at 1.67 times as on 31 March 2021. Total debt/GCA, interest coverage & other debt protection metrics are expected to remain healthy moving forward.

Key Rating Weaknesses:

Degrowth in revenues during FY21; expected to improve in the short run:

The Total Operating Income of the company grew to INR 126.10 crore in FY21 at CAGR of 18.68% in the last four years ended FY21. However, there was a decline in total operating income in FY21 and remains modest. Decline is majorly attributed to headwind arising out of nationwide lock down in the month of March 20 due to Covid-19 pandemic and change in the company's business model whereby started to bid directly for infrastructure projects from being a Sub-Contractor. Company had completed the sub-contract projects in FY21 and had not taken any new sub-contracts during the period. The unexecuted orders are on Principal &/or JV basis due to this the revenue is expected to grow from FY22 onwards.

Geographical & Client concentration of order book:

The Income is concentrated in the states of Madhya Pradesh (55.91), Uttarakhand (33.05%), Haryana (10.18%) and Maharashtra & Uttar Pradesh (0.85%). Whereas the unexecuted order book remained concentrated with 38.90% from Punjab, followed by 25.08% from Arunachal Pradesh, 24.26% from Rajasthan & Gujarat (Combined together), 6.56% from Madhya Pradesh and 5.20% from Uttarakhand. The unexecuted order book is Client concentrated with 82.41% from NHAI, 16% from NHIDCL & 11.32 from BRO. However, the company has

Press Release

adequate experience to execute projects in these states and also operating in a concentrated geography and clients provides efficient control and reduces the logistical expense.

Highly fragmented and competitive nature of the sector with significant price war:

The domestic infrastructure/construction sector is highly crowded with presence of many players with varied statures & capabilities. Boom in the infrastructure sector, a few years back, resulted in increase in the number of players. While the competition is perceived to be healthy, significant price cut by few players during the bidding process is a matter of concern as the same can dent the margins.

Susceptibility of operating margin to volatile input prices:

Major raw materials used in civil construction activities are steel & cement and in road construction activities are stone, asphalt/bitumen and sand which are usually sourced from large players/dealers at proximate distances. The raw material & labour (including subcontracting) cost forms the majority chunk of the total cost of sales for the last three years. As the raw material prices & labour (including sub-contracting) cost are volatile in nature, the profitability of the company is subject to fluctuation in raw material prices & labour (including sub-contracting) cost. However, presences of escalation clause in most of the contracts protect the margin to an extent.

Analytical Approach: Standalone

Applicable Criteria:

Rating Methodology for Infrastructure Companies.

Financial Ratios & Interpretation (Non-Financial Sector)

Liquidity – Adequate

The Company has adequate liquidity marked by adequate net cash accruals to its maturing debt obligations. The average cash credit utilisation was around 94.47% during the last twelve months ended 31st March 2021. The unutilized bank guarantee limit amounting to INR 7.88 Crore as on 31st March 2021, also the limits were revised by INR 20.00 Crores to INR 25.00 Crore. The current ratio stood at 1.40 times as on 31 March 2021.
