Details of Facilities/Instruments are in Annexure 1. Facility wise lender details are at Annexure 2. Detailed explanation of covenants is at Annexure 3.

Detailed Rationale

Infomerics Ratings has reaffirmed the ratings assigned to the NCDs of Sahara Housingfina Corporation Limited (SHCL) which continues to derive strength from comfortable capitalization level, average earnings profile, good growth prospects given the huge housing need in the country. The ratings are however partially constrained by continuing imbroglio with Sahara group pertaining to poor debt servicing track record, sustained decline in asset under management (AUM), poor asset quality and weak resource profile.

Infomerics Ratings expects outlook to remain negative reflects inability to grow the AUM on account of funding constraints owing to concerns associated with the group coupled with expectations of poor asset quality over medium term.

Key Rating Sensitivities:

Upward Factors

- Significant improvement in scale of operations and profitability on a sustained basis
- Significant improvement in asset quality

Downward Factors

Sustained decline in AUM and profitability from current level

Press Release

- Significant deterioration in asset quality from current level

List of Key Rating Drivers with Detailed Description

Key Rating Strengths:

Comfortable capitalization level: SHCL's capital adequacy is comfortable as marked by capital to risk weighted assets ratio (CRAR) which stood at 127.87% in FY25 (refers to period 1st April 2024 – 31st March 2025) (FY24: 110.84%) which is well above the minimum regulatory requirement. The capitalisation levels are supported by SHCL's tangible net worth which stood at Rs. 52.38 crore in FY25 (FY24: Rs. 51.71 crore) Infomerics expects capital adequacy to remain comfortable in FY26 on the account of expected support in the form of corporate loans from the group companies.

Average earnings profile: SHCL's earnings profile is average marked by y-o-y decline of ~18% to Rs. 8.63 crore in FY25 on back of decline in loan assets. This led to SHCL's PAT in absolute term decline to Rs. 0.65 crore in FY25 (FY24: Rs. 1.40 crore) and decline in ROTA to 0.75% in FY25 from 1.42% in FY24. Additionally, SHCL's NIM declined to 8.22% in FY25 (FY24: 8.94%) on back of lower net spread. Furthermore, SHCL's cost to income levels remains elevated at 88.90% in FY25 (FY24: 74.03%) on back of decline in income levels. Going forward, SHCL's earnings profile will remain key rating monitorable amidst stagnancy in its AUM levels.

Good growth prospects given the huge housing need in the country: The sector is largely driven by the aspirations of people in all income segments who desire to own a house early in their lives. The capacity of the lending institutions has grown over the years as the mortgage segment has proved to be promising and profitable and increasingly bankable. The market is big and growing on account of factors such as rapid urbanization, population migration to urban centres and demographic composition.

Press Release

Key Rating Weaknesses:

Continuing imbroglio with Sahara group pertaining to poor debt servicing track record: SHCL is a part of the Sahara India group. There have been serious allegations against the late Chairman of the group in relation to non-payment of dues to optionally convertible debenture holders. The group was directed to sell a part of its assets in India to raise part of the alleged defaulted amount which hasn't completely happened. Legal proceedings regarding the allegations are ongoing, with the courts and regulatory authorities continuing to oversee

the process of refunding investors and holding the group accountable for its actions. Any development with regard to legal proceedings will continue to remain a key rating monitorable.

Sustained decline in AUM: SHCL's AUM has shown a sustained decline to Rs. 68.09 crore in FY25 (FY23: Rs. 78.67 crore, FY24: Rs. 75.77 crore) due to lack of accessibility of funds owing to concerns associated with its parent group. Infomerics expects stagnant growth in AUM in FY26 due to lack of availability of funding avenues for SHCL.

Poor asset quality: SHCL's asset quality continues to remain poor as marked by GNPA and NNPA which stood at 7.65% & 1.82% respectively in FY25 (FY24: 7.69% & 2.24% respectively). Additionally, SHCL's PCR improved to 77.54% in FY24 (FY24: 70.84%). SHCL's asset quality continues to remain a key rating monitorable amidst stagnancy in AUM.

Weak resource profile: SHCL does not have any borrowings from banks / Fl's due to which it is resorting to borrowings primarily in the form of NCD's and corporate loans from group companies to meets its funding requirements. As on 31st March 2025, its borrowings include NCDs of Rs. 21.00 crore and outstanding corporate loans at Rs. 1.36 crore from group companies. Infomerics expects SHCL's resource profile to remain weak due to lack of any fresh funding from banks / Fl's owing to concerns associated with its parent group.
