Key Rating Weaknesses

Modest scale of operations

The scale of operations remains moderate as the company has commenced its operations in FY15 only. However, the scale of operations grew at a CAGR of 43.17% between FY18 to FY21 provisional and stood at INR89.60 crore in FY21 on the back of healthy order execution.

Working capital intensive nature of operations

STIPL does not maintain any inventory, as the projects are executed by it in a phase-wise manner, wherein the software & hardware components are procured as and when needed. The collection period is 138 days in FY21 and on account of the same the company has also stretched its creditors as indicated by creditor's period of 76 days in FY21.

Presence in competitive and fragmented industry

STIPL operates in a highly competitive industry with many small, medium-sized and large players operating in the IT industry, providing various IT infrastructure solutions & services. Moreover, the government orders are subject to competitive bidding, thereby inviting the bid participations from many players, thereby intensifying the competition in the industry.
