### **Healthy financial profile**

## Press Release

On a consolidated basis, the company has reported TOI and PAT of Rs 1088.23 Crores and 330.66 Crores respectively for FY23 when compared to Rs 856.50 Crores and 201.84 Crores in FY22 despite the headwinds faced by the stock market given the global issues. Company has healthy profitability with EBITDA and PAT margins of 45.27% and 30.07% respectively for FY23. Current ratio stood comfortable at 1.91x as on 31 March 2023. Debt servicing indicators were comfortable with ISCR and DSCR of 8.56x and 6.86x respectively for FY23.

### Key Rating Weaknesses

#### **Susceptibility to uncertainties inherent in the capital market business**

SISL is engaged in the stock broking business and the stock market is volatile in nature, Market index like Sensex and Nifty, which goes up and down throughout the day and the company's operating performance is linked to the capital markets, which are inherently volatile as they are driven by economic and political factors as well as investor sentiments.

#### **Intense Competition**

Broking is a highly volatile and cyclical business with the presence of many established players who provide significant competition for the other fragmented and small players. The competition from large and established players and technology-focused new entrants is expected to continue to impact the revenue profile of players. This limits the profitability margins of the industry.
