Revised Press Release

Inbrew Beverages Private Limited (IBPL)

February 14, 2024

Ratings

Instrument / Facility	Amount (Rs. Crore)	Ratings	Rating Action	Complexity Indicator
Non-Convertible Debenture (ISIN: INE696R07018)	685.00	IVR BB/ Stable (IVR Double B with Stable Outlook)	Upgraded and removed from Issuer Not Cooperating Category	Simple
Total	685.00 (Rupees Six Hundred Eight Five Crore Only)			

Details of Facilities are in Annexure 1

Detailed Rationale

The upgradation in the ratings to the non-convertible debenture of IBPL reflects significant improvement in revenue for FY23 and 1HFY24 coupled with improvement in EBITDA margins during 1HFY24. The rating upgrade also reflects completion of acquisition of United Spirits Limited's (USL) 32 brands and franchise of 11 other brands during FY23. The ratings continue to derive strength from experienced promoters and favourable demand outlook for alcohol industry. The ratings however constrained by leveraged capital structure with lower debt protection metrics, working capital intensive nature of business, significant refinancing risk and highly regulated business with high duties and taxes albeit high entry barriers benefitting the incumbents.

Key Rating Sensitivities:

Upward Factors

Press Release

- Improvement in profitability metrics thereby leading to overall improvement in cash accruals which is significantly higher than Infomerics expectation could lead to a positive rating action.

Downward Factors

- Dip in operating income and/or profitability impacting the debt coverage indicators or liquidity, subdued industry scenario could lead to a negative rating action.
- Deterioration in capital structure.

List of Key Rating Drivers with Detailed Description

Key Rating Strengths

- **Stable operating profile expected to improve through FY24-FY26**

IBPL's revenue has increased to Rs.899.41 crore in FY23 a growth of 517% as compared to FY22 as during FY23. IBPL has completed acquisition of United Spirits Limited's (USL) 32 brands and franchise of 11 other brands. IBPL has reported revenue of Rs.842.45 crore in 1HFY24 with higher volume of bottles, revenue is expected to increase further with stable demand and expected price hike in State of Karnataka from where it derives 88% of the revenue.

EBITDA margins have improved to 5.96% in FY23 as compared to losses in FY22 driven by acquisition of brands of USL though benefits of this acquisition were only for six months as this acquisition was completed during September 22. EBITDA margins further improved to 11.14% in 1HFY24 with higher volume of bottles and EBITDA margins are expected to remain at the current levels with stable volume of bottles.

- **Favorable demand outlook for alcohol industry**

India is one of the fastest growing alcohol markets in the world. Rapid increase in urban population, sizable middle-class population with rising spending power, and a sound economy are certain significant reasons behind increase in consumption of alcohol in India.

- **Experienced promoters**

Press Release

Mr. Ravinder Singh Deol, Mr. Rajnikant Tirumala Sabnavis and Mr. G Pulla Reddy are the directors of IBPL. Mr. Ravinder Singh Deol is having around four decades of experience while, Mr. Rajnikant Tirumala Sabnavis and Mr. G Pulla Reddy are having more than two decades of experience in the liquor industry. They look after the day-to-day affairs of IBPL. Promoters are supported by a team of experienced and qualified professionals.

Key Rating Weaknesses

- **Leveraged capital structure with lower debt protection metrics**

Adjusted tangible net worth (before adjusting intangibles asset) has actually increased and stood at Rs.381.01 crore in FY23 (FY22: Rs.158.23 crore), mainly on account of infusion through Compulsorily Convertible Debentures of Rs.71.61 crore, and equity infusion of Rs.204.92 crore. Infomerics have considered CCD's as equity as promoters are holders of this instrument and the same can be converted into equity shares anytime at the option of lender after expiry of six months from the date of the final redemption of the NCD. If the option is not exercised, the instrument shall automatically convert at the end of tenth year from the date of issue. Despite, addition of equity, overall gearing stood higher at 1.82x in FY23 (FY22: 0.03x) due to borrowings through NCD of Rs.685.00 crore. while TOL/TNW also stood high at 3.00x in FY23 against 0.31x in FY22. The debt protection metrics marked by interest coverage stood low at 0.84x in FY23 against -2.42x in FY22. The Total debt/GCA remained high at 76.32x in FY23 (FY22: -0.61x).

- **Working capital intensive nature of business**

The operations of IBPL remained working capital intensive. IBPL's net operating cycle increased to 90 days in FY23 (FY22: 77 days) due to increase in inventory days which stood at 59 days in FY23 (FY22: 47 days), the inventory days has increased mainly as IBPL had expected more demand for liquor in Q1FY24 and hence, it increased its inventory. The collection days improved and stood at 65 days in FY23 (FY22: 87 days), due to improved realization. Creditor days decreased and stood at 33 days in FY23 (FY22: 56 days).

- **Significant refinancing risk**

Press Release

IBPL faces significant refinancing risk during FY25 (P) and FY26 (P) due to lower-than-expected cash accruals against the scheduled repayments. As per management the shortfall will be refinanced through additional debt. The ability of the management to refinance its debt repayments would be key monitorable.

- **Intense competition from distributors of other liquor manufacturing principals**

IBPL faces intense competition from distributors of other liquor manufacturing principals. However, IBPL established presence more than four decades gives it some comfort. Further, the discretionary nature of the expenditure also may sometimes limit demand, especially in times of subdued incomes.

- **Highly regulated business with high duties and taxes albeit high entry barriers benefitting the incumbents**

Liquor industry is highly regulated in India with each state controlling the production, sales and duty structure independently including control on pricing. Beside this, there is a ban on all forms of direct and indirect advertising for liquor in the country, leading to market players resorting to surrogate advertising. The complexity of the industry further lies in the different types of distribution models followed in various states like government-controlled agencies, private distribution system and auction. The uncertainty evolving around any regulatory norms make the industry vulnerable and profitability susceptible to any unforeseen changes.

Analytical Approach: Standalone

[Financial Ratios & Interpretation \(Non-Financial Sector\)](#)

Liquidity – Stretched

Press Release

The liquidity of the company remains adequate marked by free cash and cash equivalents balance stood at Rs.93.36 crore as on September 30, 2023. Current ratio stood at 1.62x as on September 30, 2023. IBPL faces significant refinancing risk during FY25 (P) and FY26 (P) due to lower-than-expected cash accruals against the scheduled repayments. As per management any shortfall will be refinanced through additional debt. Ability of the management to refinance its debt repayments would be key monitorable.

About the Company

IBPL was incorporated in the year 1972. IBPL is engaged in manufacturing wide range of alcoholic beverages (beer and spirits). In the year FY23, IBPL has completed acquisition of United Spirits Limited's (USL) 32 brands and franchise of 11 other brands. Mr. Ravinder Singh Deol, Mr. Rajnikant Tirumala Sabnavis and Mr. G Pulla Reddy are the directors of IBPL.

Financials (Standalone)*:
