Total	**1,675.00 (Rupees One Thousand Six Hundred Seventy-Five Crore Only)**				

Details of Facilities/Instruments are in Annexure 1. Facility wise lender details are at Annexure 2. Detailed explanation of covenants is at Annexure 3.

Detailed Rationale

As on 30 September 2024, VCCL has got fresh sanctions and there is also reduction in term loans due to periodic repayments. The company has also raised fresh NCDs. Accordingly, the proposed and outstanding limits/instruments have been reclassified at the request of the company.

The rating reaffirmation to various debt facilities/instruments of Vedika Credit Capital Limited (VCCL) continues to derive comfort from healthy asset quality, comfortable capitalisation, improved financial profile, adequate systems and processed and experienced management. However, the ratings are constrained by highly leveraged capital structure, geographical concentration risk and inherent risks associated with MFI Industry coupled with intense competition.

Outlook is stable on account of consistent improvement in the overall financial profile of the company and expected growth in AUM in the near to medium term.

Key Rating Sensitivities:

Upward Factors

- Substantial and sustained growth in AUM while maintaining healthy capitalisation, profitability and asset quality.

Downward Factors

- Adverse movements in collection efficiency resulting in increased credit costs.
- Substantial deterioration in AUM levels, profitability, capitalisation levels, liquidity and asset quality.

List of Key Rating Drivers with Detailed Description

Key Rating Strengths

Healthy asset quality

VCCL's asset quality remained healthy with GNPA remained low and at 0.95% as on 30 June 2024 (0.73% as on March 31st, 2024); while NNPA remained NIL for both periods as VCCL has a policy of providing entire GNPA. VCCL though remains exposed to risks associated with the MFI business, was able to maintain healthy asset quality given its stringent credit appraisal process and loan monitoring systems. VCCL's ability to sustain the asset quality in the new originations and maintain field discipline will be important from a credit perspective. VCCLs collection efficiency remained healthy with average collection efficiency remaining at 99% during FY24 (refers to period April 1st, 2023, to Mar 31, 2024).

Comfortable capitalisation with proven track record of capital raising by promoters.

VCCL has maintained a comfortable capital adequacy ratio (CAR) over the years. CAR remained comfortable and at 30.08% as on 30 June 2024 (March 31, 2024:23.47%). During FY24, the promoters have infused fresh equity aggregating to Rs. 20.18 crore coupled with retention of profits, VCCL has been able to maintain comfortable capitalisation. Moreover, the promoters plan to raise funds to the tune of Rs 76.00 crore in FY25 through dilution of promoters' stake, of which the promoters have already raised Rs 50.22 crore in Q1FY25.

Improved financial profile.

VCCLs AUM has consistently grown over the years and is at Rs 1,379.50 crore at the end of FY24 (Rs 1,097.12 crore in FY23) which includes Rs 928.39 crore of own book portfolio and Rs 451.11 crore of managed loan book. AUM has further grown to Rs 1,387.82 crore as on 30 June 2024. For FY24, company reported net interest income of Rs 91.84 crore and PAT of Rs 27.86 crore when compared to net interest income of Rs 68.96 crore and PAT of Rs 17.01 crore. NIM remained healthy at 11.11% for FY24 (10.43% for FY23).

Adequate systems and processes

VCCL has installed good tracking and MIS systems, which are adequate to support future growth expansion. Further, the company has installed monitoring systems to ensure credit bureau checks and loan utilisation checks being conducted in all cases. Further, VCCL has invested significantly in technology to ensure the real-time availability of collection data, e-verification of customer details and cashless disbursements. Internal audits are conducted regularly, and the scope and coverage are in line with industry practices.

Experienced and professional management team

The promoters are engaged into the microfinance business since 2007. Presently, VCCL is managed by a seven-directors governing body headed by Mr. Ummed Mal Jain (Chairman) and his son Mr. Gautam, Jain (Managing Director) who are having more than three decades of experience in the financing and MFI sector. Besides, all the governing body members are well versed with the intricacies of the business operation of microfinance and NBFC.

Key Rating Weaknesses

Highly leveraged capital structure

Despite regular equity infusion, majority of the growth is funded by external debt which has resulted in leveraged capital structure. VCCLs overall gearing remains high at 4.60x as on 31 March 2024 (4.71x as on 31 March 2023). Going forward reducing the gearing levels will be a key rating monitorable.

Geographical concentration risk

VCCL is exposed to geographical concentration risk with top three states contributing to more than 50% of total loan portfolio. West Bengal contributes to ~35% of loan book followed by Bihar which contributes to ~20% and Jharkhand which contributes to ~11% of loan book. Hence, the operations are geographically concentrated.

Inherent risks associated with MFI industry coupled with intense competition.

Even though VCCL has ventured into MSME lending, its product diversification remains low with the concentration primarily being in the microfinance segment. Also, the company’s portfolio remains relatively risky, given the unsecured nature of the same. Unsecured lending to the marginal borrower profile and the political and operational risks associated with microlending may result in high volatility in the asset quality indicators. The microfinance industry is prone to socio-political and operational risks, which could negatively impact the company’s operations and thus its financial position as has been seen during the pandemic coupled with severe competition by other NBFCs and Banks.

Analytical Approach: Standalone

Applicable Criteria:

[Rating Methodology for Non-Banking Finance companies]

[Criteria of assigning Rating Outlook.]

[Complexity level of rated instruments/Facilities]

[Financial Ratios & Interpretation (Financial Sector)]

[Policy on Default Recognition and Post-Default Curing Period]

Liquidity: Strong

VCCLs liquidity remains strong given the lower tenure of loans extended when compared to long tenured loans availed. As on 31 March 2024, VCCL has an adequately matched ALM profile with no negative cumulative mismatches across all the buckets. Also, the company has cash and bank balance of Rs 107.49 crore, unmarked FDs of Rs 11.47 crore and unutilised bank facilities of Rs 30.00 crore, which provides additional liquidity cushion.

About the company

VCCL is a Non-Banking Financial Company – Microfinance Institution (NBFC-MFI) registered under Reserve Bank of India (RBI). It started its microfinance on-lending operation in the year 2007 with its head office in Ranchi (Jharkhand), by providing small ticket size loan to poor woman in rural and semi-urban area through Joint Lending Group (JLG) based system and MSME loans.

VCCL is now working with 192 branches spread over 94 districts in seven states, West Bengal, Assam, Bihar, Jharkhand, Odisha, Tripura and Uttar Pradesh, where they are providing services to more than 3,87,000 clients.

Beside direct lending, the company entered into a partnership to work as a Business Correspondence (BC) with Fincare Small Finance Bank, SIDBI, IDBI, IDFC First Bank and Reliance Commercial Finance Ltd wherein VCCL manages the entire micro finance operation for designated areas on behalf of banks/FI's for a certain fee income.
