

## Infomerics Valuation And Rating Pvt. Ltd

Press Release

### GMR Infrastructure Limited

September 28, 2018

#### Rating

Sl. No.	Instrument/Facility	Amount (Rs. Crores)	Rating Assigned
1.	Term Loan	672.70	IVR BBB-/Stable Outlook (IVR Triple B Minus with Stable Outlook)
	<b>Total</b>	<b>672.70</b>	

Details of Facilities are in Annexure I

#### Detailed Rationale

The aforesaid ratings derive comfort from its experienced promoters and management and diversified business portfolio. The ratings are however constrained by volatile revenue and operating profitability, stretched financial risk profile and challenging environment for the group's energy assets.

Profitability, deleveraging of balance sheet and ability to monetize assets are the key rating sensitivities.

#### List of Key Rating Drivers

- Experienced promoters and management
- Diverse business profile
- Volatile revenue and operating profitability
- Stretched financial risk profile
- Challenging environment for the group's energy assets

#### Detailed Description of the Key Rating Drivers

##### Key Rating Strengths

##### Experienced promoters and management

The company was promoted by Mr. G.M. Rao in 1978. It has grown from being a small firm to a conglomerate having presence in businesses such as airports, energy, transportation, urban

## **Infomerics Valuation And Rating Pvt. Ltd**

infrastructure and EPC. The company is managed by Mr. Rao and other members of the family. They are assisted by professionals having appropriate qualification and professional experience. The company has a proven track record of successful and on time execution and completion of projects across the airports and energy verticals.

### **Diverse business profile**

The company (on a consolidated basis) is a conglomerate engaged in different businesses. This enables the company to diversify its risk. The company is engaged in the EPC, energy, highways and airports businesses. This can be a source of synergy for the company, unlocking significant value in terms of efficiency and cost rationalisation.

### **Key Weaknesses**

#### **Volatile revenue and operating profitability**

Revenue and profitability of the company (on a consolidated basis) have been volatile in the past. The company experienced de growth in revenues in FY18 (Negative 8.74) per cent. Dip in performance was driven primarily on account of lower revenues from the airports business (Negative growth of ~24 per cent YoY). EBITDA margins also reduced to 25.06 per cent in FY18 vis a vis 33.81 per cent in FY17. EBITDA margins were adversely affected primarily on account of reduced tariff in Delhi International Airport Limited from July 2017. The operational parameters of the airports business however, have shown a positive trend. Margins were also impacted adversely on account of lower margins from the highways businesses.

#### **Stretched financial risk profile**

The company (on a consolidated basis) continues to have a stretched financial risk profile reflected by low profitability and debt coverage matrices. The company has reported losses (PAT) in the last 3 financial years, primarily driven by interest cost (on account of high debt burden) and share of loss in associates. Debt service and coverage indicators are also low. Interest coverage ratio stood at 1.04 times (FY18). Though, the financial risk profile of the company is stretched, it has a proven track record of raising funds to meet its commitments.

### **Challenging environment for the group's energy assets**

The company's energy assets continue to face challenges on account of low PLF levels, resulting in low profitability and cash accruals. Additionally, the gas based assets of the company also face uncertainty as regards availability of gas.

### **Analytical Approach and Applicable Criteria:**

Rating Methodology for Infrastructure Companies

Financial Ratios & Interpretation (Non-Financial Sector)

### **About the Company**

GMR Infrastructure Limited (GIL) is a part of the diversified GMR Group, is promoted by Mr. G.M. Rao and family.
